

Bronzetto *Collection Eclectic*

B

Brass Brothers & Co. Eclectic is a new and exciting brand of lightings and furnishings that is the brainchild of a team of skilled artisans, designers, and creatives. This brand is an offshoot of Il Bronzetto® company, which has been active in Florence since 1963, and the team brings with them a wealth of knowledge and expertise from the past century. The Eclectic Collection draws inspiration from real elements of nature, capturing their essence and transforming them into exquisitely designed pieces that infuse a touch of the wild into any interior space. The result is a sensual and sophisticated line that bring a modern jungle vibe to any space.

Advice

The products may show small variations and imperfections due to the craftsmanship of the work of the material and make unique each piece. The brass and nikel finishings are intentionally natural and so are subject to variations and opacifications that give the object beauty and patina of time. If you wish to avoid these modifications, it is possible to ask us for a semishiny or matte varnishing.

Brass Brothers

Raised in a workshop, frequent visitor of the Oltrano' alleys with its historical workshops of artisans, Simone Calcinai, owner of the company Il Bronzetto with his brother and cousin, is a profound connoisseur of techniques and materials. The curious and exuberant temperament, the explosive creativity has always led him to explore new boundaries and to found in 2014 Brass Brothers & Co., whose story is a family affair, with Antonio Calcinai, a craftsman, passing his knowledge and skills to his two sons, Simone and Pierfrancesco. Along comes their cousin Michelangelo, who assists Simone's creativity and Pierfrancesco's industrious craft. Together, they create a new way, studying the past and taking inspiration from and reworking old inputs, tying it all off with a modern taste. Eclectic Collection is testament to our commitment to innovation and creativity. By using real elements of nature and transforming them into exquisitely designed pieces, we have created a collection that is not only visually stunning but also evokes a sense of raw, untamed beauty. Every piece is a work of art, with the imperfections of nature shining through in every detail.

Perpetua

Inspired by the fluidity and movement of water, Perpetua is the stunning line of drop-shaped lamps by Il Bronzetto. The drop shape symbolizes the idea of falling, and emphasizes the ever-changing nature of water. This concept, conceived by the young designer Valeria Giuva is highlighted throughout the collection, making water the star of the show. From the inception of the single drop design, this collection has expanded to include three unique versions, all of which pay homage to the original shape. Allow Perpetua to bring a touch of elegance and fluidity to your home with its beautifully crafted lamps.

Bring the mesmerizing movement of water into your home with the Perpetua Collection, the perfect embodiment of elegance and grace. Let its unique design and warm glow transform any space into a tranquil oasis of light and beauty.

Rosa Canina

The brass used in our products undergoes various processes such as micro-casting, casting, lost-wax casting, and sand casting. This allows us to create surfaces with a rough and irregular appearance that reflect the imperfect uniqueness of natural elements. We transform bark-covered stems and pointed branches into structures and arms for our table lamps. Each piece is carefully crafted to ensure that the essence of nature is preserved in every detail. The result is a collection of sensual and sophisticated pieces that bring a modern jungle atmosphere to any space. Thus, the Rosa Canina line comes to life, born from the inspiration of nature and its unique forms.

The fusion of nature and design embodied in Rosa Canina

The thorny and rough stem of this sensual plant is recreated through the fusion of brass and its burnished finishes that best represent it. Our skilled artisans meticulously transform the elements of the plant into beautiful and functional objects, bringing a touch of wild beauty to any interior.

Gingko

The Gingko Biloba leaf, with its sinuous shape, has inspired Il Bronzetto to create a unique line of home decor pieces that capture the beauty of nature. This line features two main families of manufacturing techniques, both focused on reproducing natural forms: casting and laser cutting. These two very different techniques demonstrate the company's two main approaches: traditional and innovative. The result is a collection of home decor pieces perfect for both private residences and public spaces such as hotels and restaurants, both indoors and outdoors. This line is designed for projects that aim to highlight nature as a central theme in interior design, offering a way to replicate the imperfect uniqueness of natural elements. Each piece in the Gingko line is crafted with precision and care, using only the finest materials such as brass and marble. The attention to detail and dedication to quality are evident in every piece, making them a stunning addition to any home. Whether you're looking for a statement piece to add to your living room, or a small accent piece to add a touch of natural beauty to your office, the Gingko line has something for everyone.

Our Fauna line is inspired by the animal world, where elements of terrestrial fauna immortalized in brass castings. Our skilled artisans meticulously transform these natural forms into beautiful and functional objects, bringing a touch of the wild into any interior. Whether it's the graceful curves of an ibis neck or the slithering and sinuous forms of snakes, each piece captures the unique essence of these creatures. The interplay between the rough, unpolished brass and the fluid silhouettes of the animals creates a striking contrast that evokes both the wildness and sophistication of nature. With the Fauna line, you can bring a piece of the natural world into your home and let its wild beauty inspire you every day.

Hortus

Sensuality and elegance characterize the eclectic shapes of this line, which blends exotic tastes and luxury attention to detail with modern jungle-themed atmospheres. Nature replicates itself in unique artifacts, both in the most natural version of brass and in the most daring processes. The Hortus line was born from the idea of incorporating plants into an interior design, imparting a particular vitality to the environment. The inspiration comes from lamps that were in vogue in the 1970s, but with the desire to illuminate an environment with something that truly adds a touch of natural greenery to the artificiality of electricity.

Heliconia, Monstera, and clusters of Lemongrass are the plants that inspired this line and, when tightly wound in brass coils, create wall sconces that are true luminous plants.

Introducing the Jacaranda collection, inspired by a bespoke interior design project for the property of Jacaranda Caracciolo Falck in Capalbio, Tuscany. The lamp takes center stage in this project and embodies the eclectic and artisanal spirit of Il Bronzetto. The brand's DNA, rooted in craftsmanship and passion, is combined with innovation and new technologies to create a unique and youthful identity that is highly attuned to the market.

The warm and full tones selected by Jacaranda Caracciolo Falk for the villa in Capalbio, such as orange, perfectly complement the natural brass finishes and spherical feet. The capsule collection, first presented at the Salone del Mobile 2022, includes coordinated lighting and furniture pieces such as coffee tables and wall lamps.

Designer: Niccolò de Ruvo

Architect, artist, designer and viewer of ideas, explorer of fields ranging from user interface to motion graphics to the aesthetics of the future, Niccolò de Ruvo found in Brass Brothers & co. a brand that combines a continuous research and a strong experimentation. The Cage line, a set of cylindrical cages full of brass bars, represents the possibility of expressing maximum creativity, with the possibility of endless combinations and compositions.

Cage

Let the Cage line enchant you.

Drawing upon the circular shape of the tent, the captivating cages, the illuminating lights, and the enchanting sparkle of its shows, Ruvo crafted a collection that is both whimsical and sophisticated. Each piece is a work of art that captures the essence of the gypsy circus, infusing it with elegance and refinement.
