- Industrial Supplies

“I just wanted to let you know about The Tools Man. They are a local vendor of BSO and we use them a lot and to let you know they are one of the few vendors I would back up 100%. Trina is such a sweet person and they go out of their way to help you out. Many times they have come through for me and made me look good. If you have any chance using them I would definitely in a heartbeat.”

John A. Spiliotopoulos - Purchasing Agent II

Broward Sheriff Fire Rescue & Emergency Services Dept.

“Over the past year, I have had many dealings with The Tools Man Industrial Supply. The individuals that comprise this company work in synchronization to provide excellent customer care and satisfaction that far exceeds and rivals that of larger enterprises. Their ability to work with and meet our changing demands and requirements has far exceeded my expectations. For instance, we would ask for a specific item and they would have or find that particular item, alternatives (if available), cost verses quality analysis, availability, and lead time. If an item has to be procured from a third party, they would continuously monitor and apprise us of each step in their acquisition process(s). The phrase customer care and customer satisfaction defines this company.”

Learie Jennings - Storekeeper II

*Broward County Public Works Department
Water & Wastewater Services*

“The Tools Man Industrial Supply company is a very responsible company. They are quick to respond to our needs and they keep us informed as to the status of our orders. They are also diligent in resolving issues with the orders. We are very satisfied with the handling of our account and we will continue to do business with them.”

**Robert Blount, CCNA, MBA
Communications Manager**

Broward County- Traffic Engineering Division

“The Toolsman has been a very reliable Vendor to work with. I appreciate the work you do to be sure I have the best product available to do the job efficiently. I like the fact you keep me up to date with updates on any deliveries that have a lead time. Thank you for your promptness and the best customer service!”

Wanda Devine - Storekeeper

Port Everglades - Crane Section

“The Tools Man Industrial Supply is one of our local suppliers who provide the County with excellent customer service and a diverse product line. An example of their integrity is shown by their reliability, hard-work ethic, ability to deliver in a timely manner, as well as their willingness to go the extra mile. Besides running a successful business, the owner, Rafael Gonzalez, takes an active role in advocating for Small Businesses in the County and serves as a volunteer on the Small Business Advisory Board. I recognize them as a supporter of the community as well as international trade and I encourage government agencies to consider them in their bidding processes.”

Honorable Dale V.C. Holness

Broward County Board of County Commissioners - District 9
