IMPACT TECHNIQUES
In psychotherapy, the helping professions
and mental health
Danie Beaulieu

**For therapists, psychotherapists and
psychologists seeking solutions for their clients.**

312 pages

March 2020 – New edition

Éditions de l'Homme

Whether you are a psychologist, psychotherapist, occupational therapist, sexologist, gerontologist, guidance counsellor, active in a workplace or school, a medical centre or with a clientele coping with drug addiction or alcoholism, you will find in this very thorough book many resources to enhance your professional effectiveness and introduce new short-term interventions. This creative and instructive book proposes over 3000 impact techniques for every type of clientele.

Danie Beaulieu is a doctor of psychology, and co-creator of Impact Therapy and Eye Movement Integration Therapy (EMI). Her many publications, intervention tools and seminars have profoundly changed the practices of thousands of therapists, psychologists and other professionals in Canada, the United States, Africa and Europe.

Strong points

- 7500 copies of the first edition sold.
- Simple, easy-to-use tools that meet every kind of need.
- Specific techniques to help therapists guide their clients toward solutions.
- A landmark book for every therapist.
