Life may have stolen Jacques Salomé's power of speech, but the intensity of his message remains unchanged. He feels more than ever the urgency of passing on what he has learned, his beliefs, his tenderness.

Communication, romantic relationships, parent-child relationships, the joys of reading and writing, aging, hardships, change: such are his favourite themes, tackled with enthusiasm in the 75 texts that make up this book, lying somewhere between a personal diary and a passionate essay.

Jacques Salomé continues to delight us, attempting to make every space a little bigger and every second of life last a little longer, so as to give us... a hint of eternity.

For all readers familiar with Jacques Salomé's writing, this book brings together a colourful mosaic of the author's favourite subjects. For those wanting to get to know his work, the book is an accessible and useful introduction.
