DO BETTER TOGETHER

The goal is to modernize the souvenir industry while using sustainable practices creating commemorative products.

We are in the memory building business not just the souvenir business.

SUSTAINABLE PRACTICES

We believe in offering quality products that are produced with our environment in mind. In order to uphold this value, we strive to work with wood suppliers that are FSC Certified. (Forest Stewardship Council)

MADE IN THE USA

We add value our products and community by supporting small businesses both locally and throughout the country.

WATER.ORG

Water.org is a global nonprofit organization working to bring water and sanitation to the world. We want to make it safe, accessible, and cost-effective.

Certified

Corporation

BE THE CHANGE

M&W Design Co. was founded on the core of value of community, sustainability, and recyclability. We applied to be a Certified B Corporation® because we believe our business can be a force for good and inspire change for the better. Acquiring the B Corp™ certification is our way of demonstrating resounding commitment to our core values.

In early 2021, we began taking steps to complete the B Impact Assessment to validate our commitment to our employees and environmental impact. Companies who score above 80 are invited to become a Certified B Corporation®; we were thrilled to be certified with a score of 105.7!

Being a certified B Corporation® indicates that we continue to meet the rigorous standards of social and environmental performance set forth. To us, this is much more than a stamp of approval; it's a lifestyle. Maintaining our B Corp™ status challenges us to be continuously dedicated to our sustainable practices and reminds us to constantly consider how we are affecting our employees, community, and environment,.
