

ARTERIORS

Mckinley Console

#2240

Geometric angles, super sleek lines and a deep ebony finish make this a standout console. The light catches angled planes to reveal a tapered design from outside in, with asymmetrical legs that lend a contemporary edge. The blackened iron finish, almost mesmerizing, is a chemical reaction finish that not only gives it a moody side, but also keeps the table from corrosion. This is a statement piece for almost any space.
