Myrtle Sconce

#44367

Pressed into the shape of a wild, exotic leaf, this sconce is truly unique in all of its handcrafted features. Organic textures are made by pressing the plate of brass into shape, then the use of special tools and immense skill are needed to get the ridges and lines just right. The lovely, rounded edges are cut by hand, creating a magnificent, backlit horizon when the sconce is switched on. The stem and leaf are polished in an antique finish. Fits one standard blub.
