Install the Fixture

1A

JUNCTION BOX

MOUNTING PLATE

CAP NUT & WASHER

SCREW

LAMP

CAGE

MOUNTING STUD

1	To prevent scratches, while still in the bag, insert the glass into the cage.
2	Leaving some space between the bottom of the glass and the cage, begin to remove the bag.
3	Completely remove the bag and gently place the glass completely into the cage.
4	Secure the mounting plate to the junction box.
5	Connect the fixture to a suitable ground in accordance to local electrical codes.
6	Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
7	Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
8	Neatly place all the wires into the junction box, place the fixture base onto the mounting studs, and secure it in place by screwing the cap nuts and washers onto the studs.
9	Lift the cage and glass to the fixture and secure with the provided screws.
10	Screw the lamp into the socket. Refer to the label on the socket for Max Wattage Information.
11	**For Wet Locations,** caulk around the base of the fixture with waterproof construction sealant.
