Egg Drop Pendant

#DD42621

This playfully named hi & low adjustable pendant is artfully weighted with a solid egg that allows you to hang the metal hooded light at any height. Finished in dull bronzes and antiqued brass tones, the Egg Drop Pendant also works high or low in terms of formality. So incredibly versatile, Barry suggests using it over a counter or in pairs over a long table, left and right of a bed or sofa, and as a task light over a desk or work table to conserve surface space. Just a great light!
