Diagram 1 **WG Option** BULB (Not included) Diagram 2

Rivington Medium Eight-Paneled Pendant

Item # RL 5064

NOTICE:

This light fixture should be installed in accordance with all applicable, local installation codes, and by a person familiar with the construction and operation of it, as well as the hazards involved. Inspect item and contents carefully. If any damage or defect is found, do not install. Retain all packaging material until installation is complete and approved.

- 1. Carefully remove all parts from the box.
- 2. Remove the mounting plate (C) from canopy (G) by looseing finial (H).
- 3. Drill 5 holes on the ceiling and make sure the hole distance will match to the holes in the mounting plate (C).
- 4. Knock the expansion pipes (B) and screws (A) onto the ceiling holes and make sure they are flat.
- 5. A 1/4" threaded nipple must be installed in your outlet box. Then install the mounting plate (C) onto the outlet box and secure with mounting nuts (F) provided.
- 6. Remove the metal plate (K) from fixture body (P) by loosening cap nut (J).
- 7. Install the glass panels (L) to the inside framework (O) by bending tabs.
- 8. Attach the meatal plate (K) to fixture body (P) and secure with cap nut (J).
- 9. Fit the metal panels (S) and glass panels (R) to the inside of fixture body (P) and screw it with metal bars (Q).

Note: CG & WG installtion as show in diagram 1 & 2.

- 10. Loosen the lock collar on the both side of the stem (I), attach one end to the ring (M) and other end to the ring (D), then secure the lock collar.
- 11. Connect the fixture ground (bare) wire with the ground wire from the outlet box using wire nut (E). If your house does not have ground wire, then attach this wire to the green grounding screw inside of the outlet box.

IT IS IMPERATIVE THAT THIS FIXTURE BE GROUNDED.

12. Connect the fixture Neutral wire (ribbed, no markings) with the neutral wire from the outlet box using wire nut (E).
