ABOUT US

ABOUT RUHE

Ruhe was established by a young first-generation entrepreneur in 2020 with the sole aim of making a mark in the realm of the Kitchen & Bathroom Fittings Industry. The brand before its inception operated as an OEM but within a short period realized its competence and immense potential and moved ahead with its establishment as an Individual Company, which today takes pride in indigenously manufacturing and selling millions of products across the length and breadth of the Country.

The brand illuminates its core values of extraordinary quality and services through its 100% Made in India products with authentic, standardized and genuine Raw Materials, full warranties on all its products for up to 10 years, and reliant and efficient consumer care and support.

Ruhe has over 2000 Stock Keeping Units (SKUs) and offers a wide array of made-in-India Bathroom and Kitchen Fittings and Fixtures – Kitchen Sinks, Handmade Sinks, Shower Drain Channels, Floor Drains, PTMT Faucets, Showers, Health Faucets, Unbreakable Bathroom Accessories and all Allied Items for installation purposes. With its water-saving faucets and showers, which consume substantially less water than their conventional equivalents, it takes the lead in dealing with water conservation and promotes sustainability by using recyclable raw materials for in-house manufacturing and packaging.

Ruhe has grown considerably in the market as a result of its solid work ethic, creative intellect, and support from its ever-growing consumer base and continues to march ahead with the vision to make its most practical, convenient and elegant products directly accessible to every Indian household.

RUHE GROUP OF COMPANIES

Backed by an experience of over 3 decades, Ruhe Solutions Pvt. Ltd. is admired for its premium Kitchen & Bathroom Fittings. The Group of Companies is acclaimed for excellence in responsible manufacturing with a perfect amalgamation of fine craftsmanship, technological innovation and long-lasting performance. Its wide range of products caters to the needs of the architectural and interior design markets.

MANUFACTURING

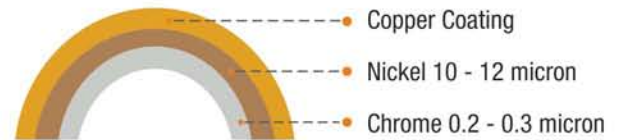

OUR QUALITY SPEAKS ALoud

**JAPANESE TECHNOLOGY
CERAMIC DISCS FOR
LONGER LIFE**

**3 LAYER COATING FOR UNMATCHED
FINISH & LONG-LASTING SHEEN**

All quarter-turn ranges are fitted with ceramic discs infused with Japanese Technology, which are made of Alumina, the hardest material after diamond.

The Nickel and Chromium coating on the faucets is in accordance with British Standards service condition no. 2 & 3 defined for the kitchen / bathroom fixtures.

**SINGLE LEVER
CARTRIDGES****COMPLIANT GERMAN
WATER-SAVING AERATORS**

All Single Lever ranges are fitted with European/Japanese Technology-based cartridge which are tested for 5 lakh cycles for superior & durable performance.

Foam Flow faucets in all ranges are fitted with German NEOPERL's foam flow water-saving aerators compliant to USGBC/LEED/GRIHA standards.
