

BOOCHIER

SIZE GUIDE

BRACELETS

DETERMINE YOUR SIZE BY MEASURING YOUR WRIST

To determine your wrist's size, you can use a ribbon measure.
The object used for measurement must fit perfectly
for the size to be correct.

Suggested methods of measurement:

1. Wrap a ribbon around your wrist.
2. Use a pen, mark the point where both sides of the ribbon cross.
3. Using a ruler, measure the length in millimeters.
4. To ensure the bracelet fits comfortably, add 1.5 cm.
5. Choose the closest measurement from the table below

You can also download and print the BOOCHIER wrist sizer on the right.

1. Before printing, make sure the «Page scaling» option is set to «None» in the dialogue box. The wrist sizer must be printed on full-size A4 paper.
2. Cut out the paper wrist sizer.
3. Make sure that the numbers are on the outside of the wrist sizer paper.
4. Insert the pointed end through the slit you have cut at the other end indicated [cut here].
5. Place your hand through the wrist sizer and pull the pointed end until it fits comfortably on your wrist.

The number that lines up with the edge of the slit is your wrist size.

Please note that the wrist sizer is an indicative guide only and therefore may not be an exact measure.
