

Lock Better. Live Better.

Smart Lock User Manual

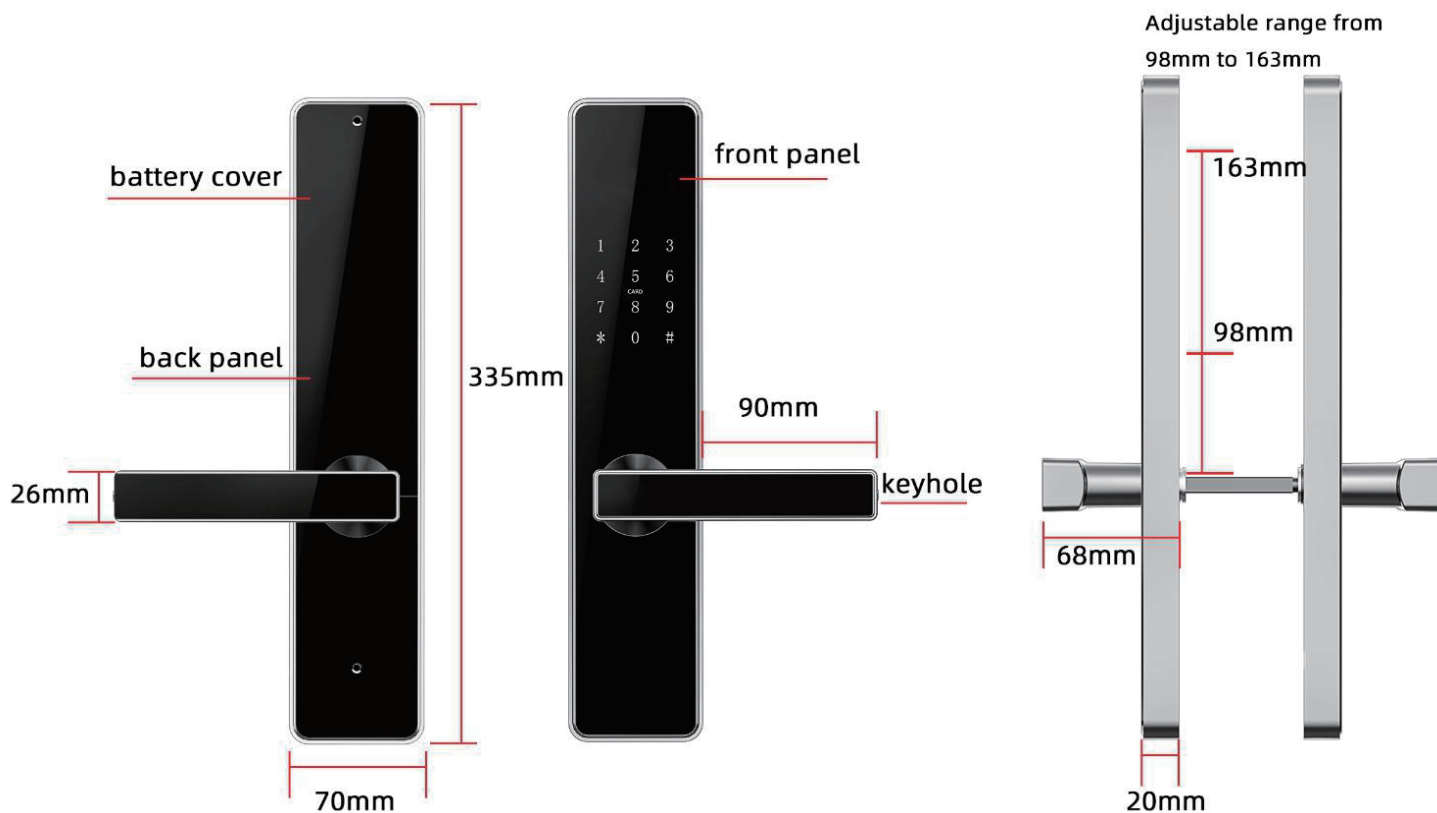

Special Attention:

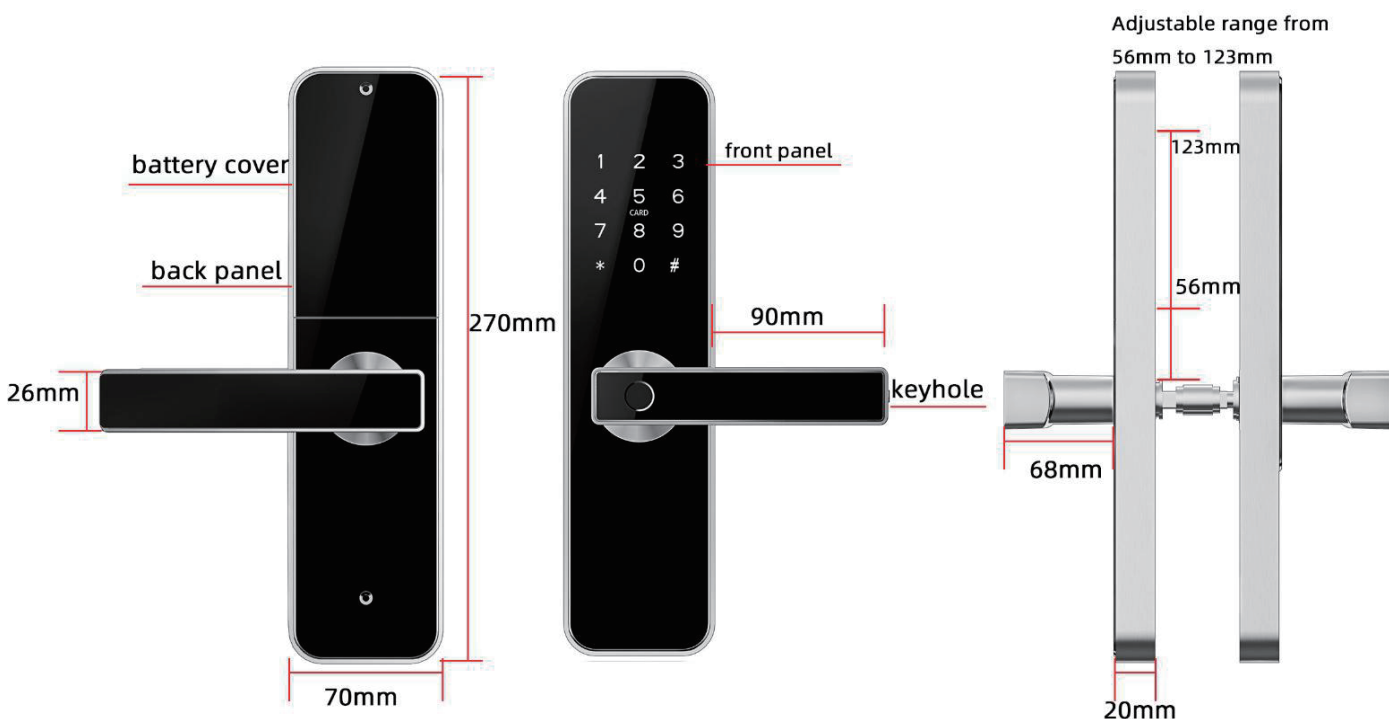

1. Please keep mechanical keys outdoor, just in case keys lock in doors.
2. Please change the batteries when notified by low wattage alarm.
3. Read this manual carefully before installation, and keep it for future reference (warranty).

5.2 User Management

5.2.1 Bluetooth management

After mobile phone and door lock connected, Click " " as shown in figure 2-1 to unlock. (Make sure the connected device is within 5 meters from the Smart lock)

5.2.2 Remote control management (Wi-Fi Option)

After confirming that your device and door lock are connected to the gateway, Click " " as shown in figure 2-1 to unlock. The lock can be unlocked and controlled remotely from any destination in the globe as long as a network connection is available. (How to set up the gateway to connect to your phone refer to step 5.3) Please make sure in the lock settings the "Unlock Remotely" is on, or else the symbol shown above will not appear.

5.2.3 e-Key management

Click on the " Send eKey " as shown in figure 2-1, you can send the eKey to other users of AUSLOCK APP to authorize Control (the receiver must download the APP and register an account) → Enter recipient's account of AUSLOCK, set the name and effective time of the eKey as shown in figure 2-2 → Send → The recipient's account has Bluetooth unlock permission.

5.2.4 The Admin password management

Click " Settings " as shown in figure 2-1 → See Basic → Admin Passcode as shown in figure 2-3 → input Passcode on the keypad of lock → "#" to unlock.

5.2.5 Dynamic password management

Click " Generate Passcode " as shown in figure 2-1 → figure 2-4 You can set the effective time and effective number of passwords → Generate password → Input password to unlock.

5.2.6 Unlock records

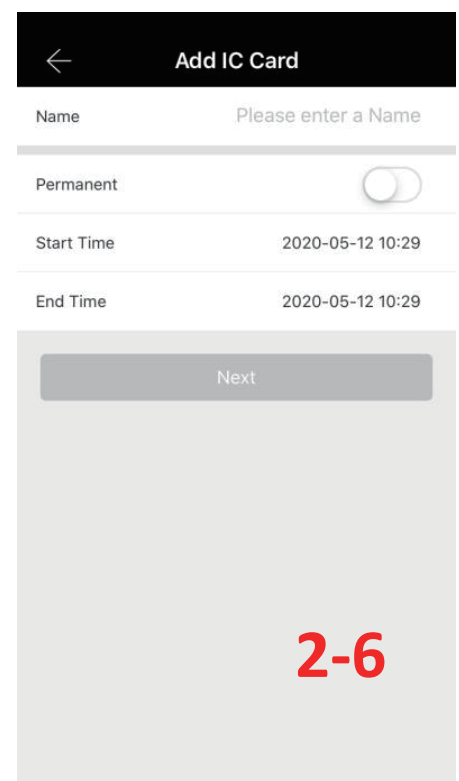

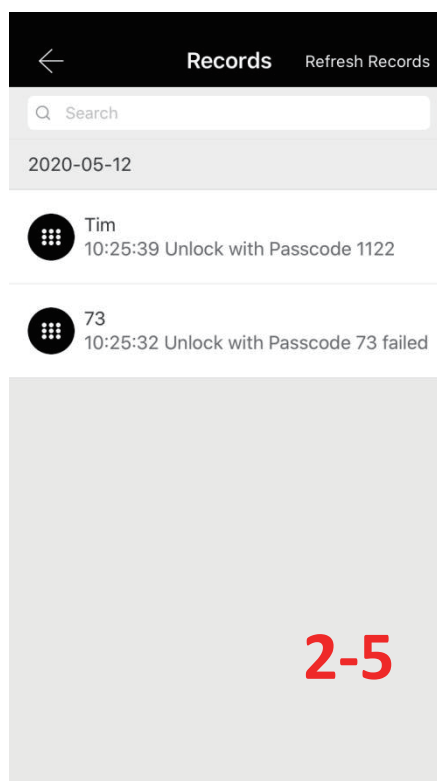

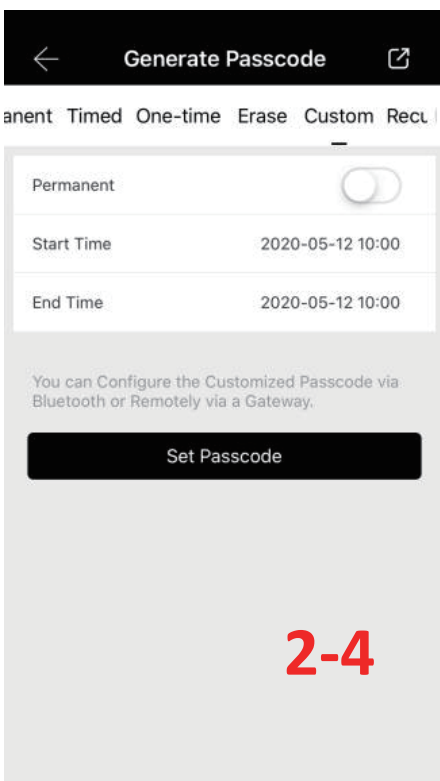

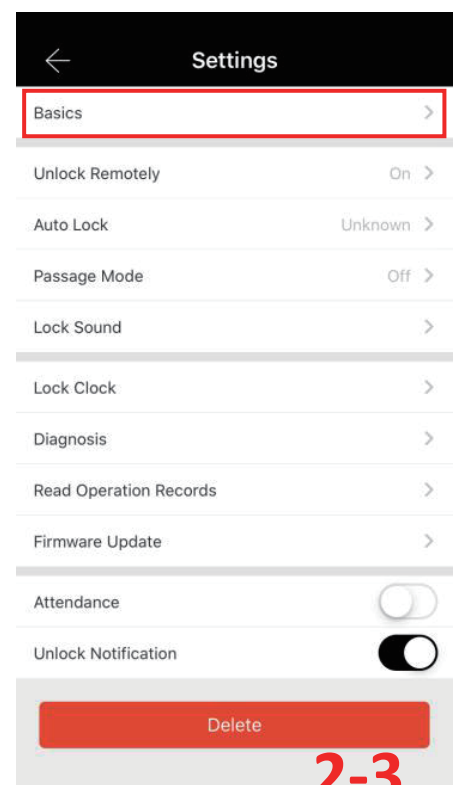

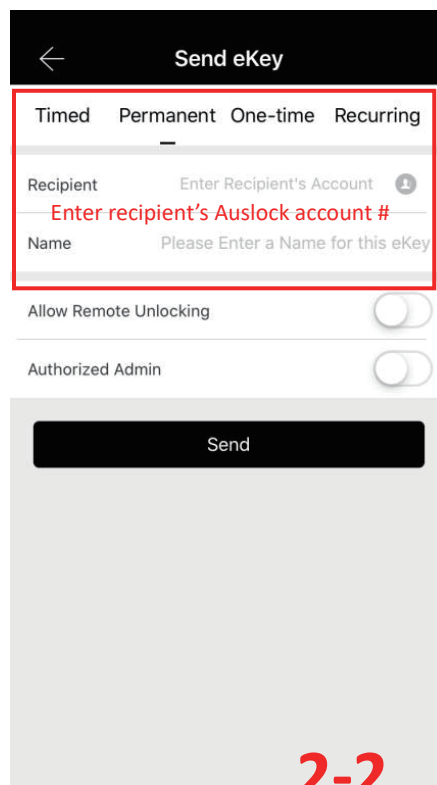

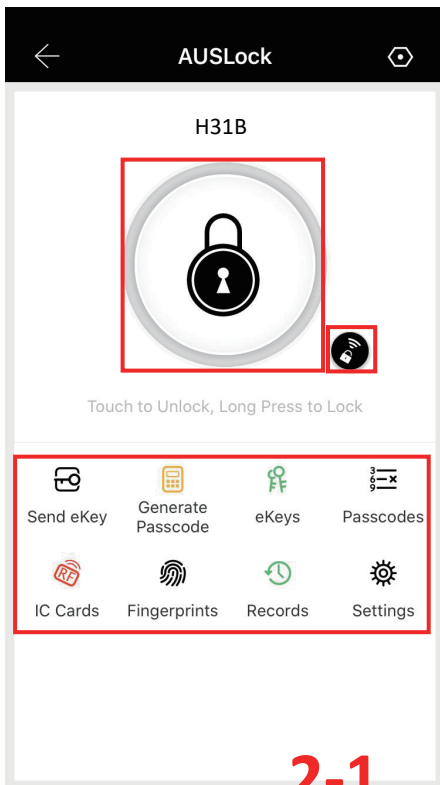

Click " Records " as shown in figure 2-1 → you can query your unlock record as shown in figure 2-5.

5.2.7 Fingerprint management (for G11B and H31B)

Click "  " as shown in finger 2-1 → Click "  " → Add Fingerprint → set the name and effective time of the fingerprint → Start → Place your finger on the sensor follow the instructions → Add fingerprint OK → Place your fingerprint on the sensor to unlock.

5.2.8 IC Cards management

Click "  " as shown in figure 2-1 → Click "  " → Add IC Cards as figure 2-6

5.3 Add Gateway(Optional)

Light Status

When the gateway is powered on:

-  Light flashes alternately in red and blue:
Stand-by mode, ready for pairing
-  Blue light: Working mode
-  Red light: Network failure

Pair the Gateway with APP

1 Activate the APP

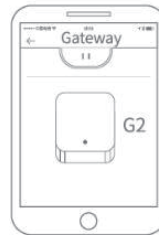

2 Press "☰"

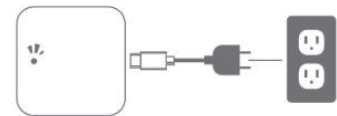

3 Select [Gateway]

4 Select [G2]

5 Plug in the gateway and power it on, while the light flashes alternately in red and blue

6 Press "+" sign

7 Add Gateway

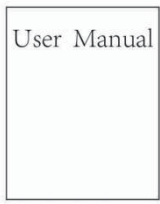

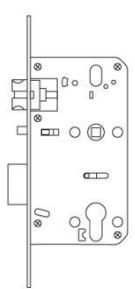

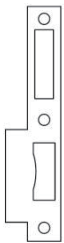

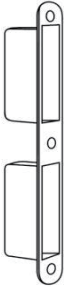

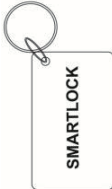

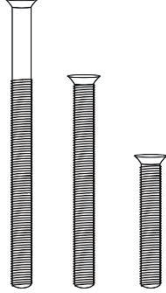

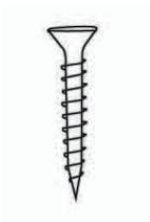

8 Select the network and fill in the password

9 Add complete

⚠ Notice: If times out, please power off and try it again.
