

SILICONE REINFORCED BLANKING END CAP – 3PLY

SKU / PART NUMBER: SRP

Application: Blanking Plugs & Hose Finishers

Reinforcement: 3 Ply Reinforcement

Temperature Rated: -60°C to +180°C

Hose Grade: VMQ Silicone Rubber

Colour: Black

Ideal for heavy duty pressure connections and provides excellent resistance for high temperature applications. Compatible for use with coolant, water, air, turbocharger bypass valve ports, vacuum ports, throttle body water ports & heater cores.

Reinforced silicone caps are not compatible with fuel, oil, or any petroleum-based products.

Designed specifically to be installed on your cooling system. Vacuum caps have no reinforcement and are intended for vacuum and very little pressure. Reinforced Silicone Caps are manufactured just like our reinforced silicone radiator hoses with 3 layers of polyester webbing for reinforcement, you can be sure that ASH Reinforced Silicone Caps will withstand the high temperatures and pressures of your cooling system for years to come. ASH Reinforced Silicone Caps are compatible for use with coolant, water, air, turbocharger bypass valve ports, vacuum ports, throttle body water ports, heater cores, and much more.

Internal Diameter	Wall Thickness	No. Of Plys	Overhall Length	Inside Depth
4mm	4mm	3	60mm	50mm
6mm	4mm	3	60mm	50mm
8mm	4mm	3	60mm	50mm
10mm	4mm	3	60mm	50mm
12mm	4mm	3	60mm	50mm
16mm	4mm	3	60mm	50mm
18mm	4mm	3	60mm	50mm
20mm	4mm	3	60mm	50mm
25mm	4mm	3	60mm	50mm
