- All assembly fittings should always be tightened properly and those fittings should be checked regularly and re-tightened as necessary. When not in use, keep it away from children.
- Never substitute parts. **DO NOT** use accessories, spare parts, or any component not supplied or approved by besrey, as they may make the product unsafe.
- Be aware of the risk of open fires and other sources of strong heat, such as electric bar heaters, gas fires, etc.

**DO NOT USE THE PRODUCT WITHOUT THE SUPPORT FRAME.**

- ALWAYS engage the brakes before placing your child in the product. BE SURE both sides are locked in position whenever a child is in the product.
- To reduce the risk of SIDS (Sudden Infant Death Syndrome), pediatricians recommend healthy infants be placed on their back to sleep unless otherwise advised by your physician.
