

Built With World-Class Filters for Fresh and Contaminant-Free Water

Equipped with water filters that are tested and certified by NSF International*, proving it's effective in filtering out contaminants in water.

Get fresh and healthy water at 10°C, room temp, and 90°C instantly, without the metal, rusty taste, and chlorine smell.

Convenient

Easy to use

With a sleek finish that resists scratches

No need to top up water because it connects directly to your water supply

4-Stage Filtration System

With a hot water child lock to protect children against scalding themselves

Consumes up to 3X less electricity than ordinary kettles when boiling your water

You can switch off the heating or cooling effortlessly every time you don't need it

With a food-grade and rust-proof stainless steel tank so it's long-lasting and hygienic for your water

With a perfect height so even children can easily reach it to dispense their own water

**MOST VALUE-FOR-MONEY
TANK WATER PURIFIER**

Looking back... How much time and effort did you already spend boiling water?

Whilst boiling water takes about 5 minutes only, if you add in the time you spend topping up your kettle, cooling down boiled water, transferring it to containers to put in the fridge, and doing everything all over again 2-3X a day every day...

Then that's a lot more hours and effort wasted to simply get cold water to quench your thirst and hot water for your coffee, tea, milo, baby milk, or noodles.

But with **Sterra Y™**, you can **instantly get hot water** at 90°C, room temp water, and cold water at 10°C that's already filtered and contaminant-free – which saves you time and effort!

Sterra Y™ makes life more convenient ...in style

Sterra Y™ purifies your water using a proven effective **4-Stage Filtration System**, so you get clean, contaminant-free, and healthy water for you and your family.

With a unique, aesthetically pleasing design to suit your kitchen and personal style—and to impress everyone who sees!

This sleek water purifier connects directly to your water point, so you don't need to tire yourself out refilling it with water or worry about it running out.

ENJOY PURE WATER MINUS THE HASSLE

Simply push your cup against the touch-free levers to easily dispense your clean, great-tasting water—no need to spend time and effort boiling or chilling it in your fridge anymore!

How Does Sterra Y™ Make Your Water Contaminant-Free, Healthier, and Pure?

Raw water from
water supply
CITY WATER

So you can get
clean, clear, and
pure-tasting water!

01

PP Filter

First, it removes rust sediment, colloid, and suspended solids from your water.

02

GAC Filter

Then it traps residual chlorine, colour, odour, and halogenated hydrocarbon in water.

03

Ultra-filtration

Next, it removes micro-impurities, bacteria, and colloids in water.

04

T33 Post Carbon Filter

Lastly, it further removes residual chlorine, organic matter and odour, and improves water taste.

优雅、超薄、
紧凑的设计

易用

最物超所值的
水箱净水器

回顾过去...你在烧水上花了多少时间和精力

虽然烧开水只需要大约五分钟，如果把给水壶加满水、沸水冷却、装进容器里放进冰箱的时间加起来，每天重复这样做2-3次...

这样就会浪费更多的时间和精力去喝冰水解渴，或者喝热水冲泡的咖啡、茶、美禄、婴儿奶或面条等。

但是有了 **Sterra Y™**，你可以**即时获取90℃热水**、常温和10℃的冰水，已过滤且无污染 - 节省时间和精力！

Sterra Y™ 让生活更方便...带给你新的生活方式

Sterra Y™ 采用高效的**四级过滤系统**净化水质，让您为自己和家人提供干净、无污染、健康的水。

采用独特、美观的设计，可完美搭配您的厨房和个人风格 - 并给每个看到的人留下深刻印象！

这款光滑的净水器直接连到您的出水口，所以您无需自己受累再往里面注水，也不用担心水会用完。

享用纯净水 无需麻烦

只需将杯子放到非接触式触控杆上，就能轻松地流出干净美味的水-- 再也不需要花时间和精力把水煮沸或放在冰箱里冷却了！

Sterra Y™ 如何让您的水 无污染、更健康、更纯净？

来自供水的
原始水
市政水

01

PP 滤芯

首先，它会去除水中的铁锈沉淀物、胶体和悬浮物。

02

GAC 滤芯

然后，它会吸附水中残留的氯、颜色、气味和卤代烃。

03

超滤

然后，它会去除水中的微杂质、细菌和胶体。

04

T33 后置
碳滤芯

最后，它进一步去除残留的氯、有机物质和气味，改善水的味道

这样你就得到了干
净、清澈、纯净的水！

包含

1 年质保
(价值 RM 225.00)

免费获得 RM 960.00
价值的滤芯
