

MGP 2

Stain remover for oily stains

Oil and grease stain-remover.

Strong Points

- Noncorrosive
- Does not produce harmful fumes
- Suitable for any kind of natural stone and ceramic
- Ready to use

Application

SHAKE BEFORE USING

READY TO USE PRODUCT, DO NOT DILUTE.

Cover the stain with a good amount of MGP 2. Wait until the product turns into a white and powdery spot. Remove with a cloth. Repeat the treatment if necessary. Do not use on wet surfaces.

Warnings

Before using the product, read the toxicological data sheet (MSDS) and the label detailing all risks and the personal protective equipment to be used for a correct use. The data of this technical data sheet is based on reliable information. Despite of this, the manufacturer can't know in advance the condition of the materials to be processed and the way of use of the product. Therefore, he disclaims any and all responsibility for damage arising from inadequacy of the product for special applications.

Before treating or cleaning surfaces, carry out a test on an invisible point to prevent possible damages, since our responsibility is limited to the warranty of the purchased product and therefore we disclaim any responsibility for damages resulting from negligence or wrong use.

Packaging and Storage

Keep the original, sealed container in covered, ventilated, dry environment and keep away from heat or low temperatures. After the use keep the package well closed, so the product has a shelf life of approx. 12 months.
Box of 24 x 0.500 L bottles
