

NO SLIDE MARMO

Antislip treatment for marble

Antislip treatment for marble.
Creates a controlled micro-porosity on the treated surface.
After the treatment on polished marble the surface will not be shiny but it will have a satin effect with certified anti slip characteristics.

Coverage: 1 litre for approx. 8-12 m² depending on the hardness of the marble

Strong Points

- Quick treatment
- Not reversible
- Permanent treatment, leaves a satin, matt finish
- Does not produce harmful fumes
- Certified product
- Easy application
- Does not turn the surface yellow
- Can be sucked up with a water vacuum

Application

SHAKE BEFORE USING

READY TO USE PRODUCT, DO NOT DILUTE.

ONLY USE WEARING PROTECTIVE GLASSES AND GLOVES.

Clean the surface using MGP 25. If the surface had been previously treated remove the existing treatments with MGP 26.

Apply NO SLIDE MARMO on small areas at a time. Apply directly on the surface and spread it out evenly with a brush or cloth with circular motions for 1 or 2 minutes. Allow to act 5 to 10 minutes, depending on the desired anti slip degree. The surface will look matt.

Suck up the product with a water vacuum and rinse out with water and detergent MGP 24.

Check if the anti-slip treatment works. If it does not enough, repeat the previous steps.

For the ordinary maintenance of the treated surface we recommend the regular use of MGP 25 detergent.

Warnings

Before using the product, read the toxicological data sheet (MSDS) and the label detailing all risks and the personal protective equipment to be used for a correct use. The data of this technical data sheet is based on reliable information. Despite of this, the manufacturer can't know in advance the condition of the materials to be processed and the way of use of the product. Therefore, he disclaims any and all responsibility for damage arising from inadequacy of the product for special applications.

Before treating or cleaning surfaces, carry out a test on an invisible point to prevent possible damages, since our responsibility is limited to the warranty of the purchased product and therefore we disclaim any responsibility for damages resulting from negligence or wrong use.

Packaging and Storage

Keep the original, sealed container in covered, ventilated, dry environment and keep away from heat or low temperatures. After the use keep the package well closed, so the product has a shelf life of approx. 36 months.
Box of 15 x 1 litre bottle – Box of 4 x 5 liter cans
