

# SINGLE DISC MACHINES

## ORBITOP

Professional machines for **grinding, polishing and cleaning** all types of civil and industrial floors.

# ALL THE ADVANTAGES OF OUR MACHINES

## Roto-orbital manual grinder

*ORBITOP 10 was designed to meet the widest range of market needs. Thanks to its roto-orbital movement, ORBITOP allows the user to polish **marble** countertops, vanities, tables and smaller surfaces. Ideal for **micro-polishing** treatments with Traxopad diamond abrasive pads and for treatments with polishing powders, waxes and crystallizers.*

## Practical handles anti-vibration

*Sander equipped with practical handles, anti-vibration mounts, on-off emergency button, 8mt of cable and pad holder. **Possibility of adding a long handle.***

*Long handle for work on stairs*

## Traxopad

Recommended for use with specialized **TRAXOPAD DIAMOND DISCS** for the restoration and polishing of countertops, work tops, vanities and steps in **marble, concrete, terrazzo and terrazzo tile.**

## Orbitop with handle and Traxo

## Orbitop with splash guard
