

ORANGE
PET NUTRITION
the Pet Food People..

NOVEMBER

2025

Orange Pet Nutrition was founded by two Pune-based animal lovers, Bharat Pittie and Aiyaz Hamirani, who wanted to improve the lives of pets beyond their own.

We are a platform sourcing top brands from around the world for pets, small and big, four-legged and feathery. With the goal of enriching the quality of life of not just pets but also their doting pet parents, we are India's leading distributors determined to make the pet food and supplies space a safe, resourceful and above all, a progressive one.

We understand pets here at Orange Pet Nutrition Pvt Ltd. We strive to meet their dietary requirements. Perhaps it's because we ourselves are pet parents, or perhaps it's because of the depth of our experience in the pet food industry. The truth is that we are fully cognizant of the ideal diet for pets. And perhaps that's what makes us a trusted pet food and supplies distributor in India.

...happiness in every bowl

We understand it is hard to prepare home-cooked meals or Ghar Ka Khaana for your dog every day, and even harder to ensure proper balanced nutrition for your four-pawed bundle of joy when of wholesome pet food brands with quality ingredients that fit the pocket of the Indian pet owner and formulated Fidele with the expertise of international Veterinary & Canine Nutrition Experts.

In 2021, we decided to retain our Indian roots and add a herb mix that resonates with well-being. Fidele+ though produced in Belgium to match the highest international standards, our recipes are inspired by the simple, wholesome nutrition of Ghar Ka Khaana. Unlike other brands, we choose to stand by the goodness of age-old familiar ingredients like chicken, rice, turmeric, basil, coconut oil, ginger, flaxseed, etc. We believe in honest ingredients—no jumbled mess of misrepresented protein parts, chemicals here... just wholesome, handpicked, protein-rich ingredients that promote health and long life!

Taste of the Wild

The balanced diet that nature intended®

Your pets crave the same flavors their ancestors once did. Go ahead and indulge them.

Modern science proves that your dog or cat still shares the DNA of the ancient canine or feline. Taste of the Wild dog and cat foods were created to give pets and discerning pet parents a pet food option inspired by the protein sources your dog or cat was meant to eat. To give domestic dogs and cats the vitality nature intended, their pet food must contain all the ingredients and nutrition they need to thrive. And that is precisely what they get with all Taste of the Wild recipes: complete pet foods based on the protein sources from your pet's ancestral diet.

The roasted and smoke-flavored proteins your dog or cat craves, in a variety of grain-free recipes* to suit every taste.

THE BEST

The healthy lifestyle of your little pupili is an asump for us for continuous development. This is why we attach so much to the quality of the ingredients. We offer only the best foods and smakers, which will provide animals with necessary vitamins and necessary ingredients for proper development.

Our feeds are based on ingredients that are the natural food of animals in their living envib ronment. All feeds are based on high-quality ingredients with a lot of variety. Some of them even have 45 different ingredients in the blend! All this to provide animals with a source of essential nutrients for proper growth, development and reproduction thanks to the diversity of ingredients.

Quality is of great importance to us, which is why the production process of our pet food is controlled at every stage by the employees of the quality control department – from the receipt of raw materials, preparation of mixtures according to strictly defined recipes, through the packaging process, to their proper storage. We attach great importance to uniqueness, which is why over 80% of our smakers' production is hand-made.

The variety of feeds is based on multi-component compositions for traditional nutrition (fruit, vegetables, cereals, seeds, granules, extrudates). The form of granules allows you to avoid selective selection of ingredients from the mixture, thanks to which we can be sure that we provide your pets with everything they need.

The uniqueness of our products is also based on the technologies used in the production of packaging: protective atmosphere – method of packaging food that ensures our products an extended shelf life, a window in the packaging – allows the customer to familiarize themb selves with the product without having to open the packaging or a system that allows the re-closing of the packaging. We are constantly changing for you, so we make sure that the packaging of our products has attractive, modern graphics and is made of the best materib als.

OROPHARMA NO-PICK

Product Code	Wt	MRP (incl. taxes)
460225	100 ml	₹1,900

Bitterspray against feather pecking
Oropharma No-Pick is a bitterspray against feather pecking. This product protects growing youngsters from feather plucking by parent animals and helps to prevent feather pecking and self mutilation.

Protects against feather pecking because of its very bitter taste
Protects youngsters from feather plucking by parent animals
Helps in cases where birds are pecking their own feathers

OROPHARMA JUNGLE SHOWER

Product Code	Wt	MRP (incl. taxes)
460223	500 ml	₹3,150

It is a spray with aloe vera for glossy plumage and a healthy skin. This care product cleans the feathers, restores the balance of moisture of the skin and feathers, limits the loss of feather dust and helps to keep the skin healthy.

Ideal as a shower for pet birds
A beneficent treatment for the bird's skin and plumage
Cleans and refreshes the feathers softly

OROPHARMA OMNI-VIT

Product Code	Wt	MRP (incl. taxes)
460203	25 g	₹960
460204	200 g	₹2,350

It is a balanced blend of vitamins, amino acids and trace elements. This dietary supplement is administered for optimal condition, better breeding results, optimal development of the chicks and in conditions of weakness or stress.

It helps in cases of decreased resistance due to infection.
A fast working vitamin boost
Very effective against reduced resistance due to weakening or stress
Promotes general condition specially during the breeding season

OROPHARMA FERTI-VIT

Product Code	Wt	MRP (incl. taxes)
460205	25 g	₹960
460206	200 g	₹2,350

It is a balanced blend of vitamins, amino acids and trace elements. This dietary supplement is administered for optimal condition, better breeding results, optimal development of the chicks and in conditions of weakness or stress. It helps in cases of decreased resistance due to infection.

A fast working vitamin boost
Very effective against reduced resistance due to weakening or stress
Promotes general condition specially during the breeding season

OROPHARMA MUTA-VIT

Product Code	Wt	MRP (incl. taxes)
460207	25 g	₹960
460208	200 g	₹2,350

It is a special blend of vitamins, amino acids and trace elements, with high content of sulphurous amino acids and biotin.

This dietary supplement promotes feather development and condition, strengthens the plumage, protects the liver and ensures an optimal metabolism.

It helps to prevent fright moulting.
An optimal supplement to the feed is necessary then.
Ideal for the moult: promotes plumage development and feather condition
Strengthens the plumage
Helps to prevent fright moulting

OROPHARMA CALCI-LUX

Product Code	Wt	MRP (incl. taxes)
460214	150 g	₹2,000
460215	500 g	₹3,300

It is a high-quality, water-soluble source of calcium. This dietary supplement is administered for good egg shell formation, for good skeletal development in young birds, during the breeding season to prevent egg-binding and in cases of calcium deficiency or calcium tetany.

A calcium supplement for a good egg shell formation
Promotes a healthy skeletal development in young birds
To be administered as a supplement also in cases of calcium deficiency or calcium tetany

OROPHARMA OPTI-BREED

Product Code	Wt	MRP (incl. taxes)
460221	500 g	₹2,550

Is a well-balanced blend of amino acids, vitamins, minerals, trace elements, Florastimul® and L-carnitine.

Supports general health and productivity and contains all the components your birds need for a good development. Adding Opti-Breed to your own eggfood blends ensures optimal breeding and growth.

Florastimul® is a prebiotic, feed for good bacteria in the intestines.

It supports the quality of the intestinal flora and ensures a good digestion.

L-carnitine supports the growth of the chicks. L-carnitine also supports fat combustion, which results in greater availability of energy for physical exertion.

OROPHARMA PROBI-ZYME

Product Code	Wt	MRP (incl. taxes)
460211	200 g	₹3,600

It is a combination of probiotics and digestive enzymes.

This dietary supplement promotes the crop and intestinal flora, increases good intestinal flora, ensures a better digestion of the food and gets the intestinal and crop flora of one day old chicks started.

It contains probiotics. These are good bacteria present in the bird's intestines (and crop).

In addition to the good bacteria, Probi-Zyme contains special enzymes that promote the digestion of the food eaten.

OROPHARMA ORO-DIGEST

Product Code	Wt	MRP (incl. taxes)
460244	150 g	₹2,550
460210	500 g	₹5,400

It is an intestinal conditioner.

This product prevents the adhesion of pathogenic bacteria in the intestines, ensures a better consistency of the droppings, promotes hygienic nests and prevents the cloaca feathers from sticking together.

It serves as a prebiotic or food for the good intestinal flora.

The added probiotics help to inhibit pathogens thus stimulating the growth of positive bacteria.

OROPHARMA CAN-TAX

Product Code	Wt	MRP (incl. taxes)
460217	150 g	₹3,775
460218	500 g	₹7,000

Red colourant based on canthaxanthin

Ensures a beautiful even red colour in red canaries

Can intensify the red colour in other birds

In combination with Oropharma Avi-Chol, for an optimal liver function

OROPHARMA ORO-BATH

Product Code	Wt	MRP (incl. taxes)
460243	50 gm	₹925
460213	300 gm	₹2,300

It makes feathers more supple, keeps the feet and skin free from scaling and ensures glossy feathers. Oro-Bath has a relaxing function on the muscles and cleans the skin and feathers.

A beneficent treatment for the bird's skin and plumage

Relaxes the muscles and cleans the skin and feathers softly

Preventive care against feather mites

Extra energy production = more performance possibilities
More and better production of crop milk

ZuPreem®

THE POWER OF PELLETS

An Extraordinary Idea Is Born

The history of ZuPreem started with an idea – an idea that changed the way we look at the role of nutrition in the lives of all animals. The idea was revolutionary and at the same time very simple. Provide Exceptional Diets for Extraordinary Animals. This is the mission of the ZuPreem brand today and its guiding force for years to come. Developing Better Diets For The Pets We Love

The idea for better pet nutrition started almost 100 years ago when it was discovered that sick pets could be treated by changing their diets. As science and improvements in animal health advanced, we're glad we picked up the phone in the early 1960's and talked to a zoo director who wanted to explore a different way to feed the animals in his zoo's collection. Our response launched the ZuPreem brand and forever changed how and what we feed these extraordinary animals. Building on this heritage, ZuPreem expanded the brand to include nutrition for non-traditional pets, with a focus on caring for each animal and each caregiver with the highest quality, most perfectly formulated nutrition possible.

Leading With Expertise

At ZuPreem, providing our pet owners and caregivers the best possible information on nutrition and health is always at the top of our mind. That's why we partner with experts in the field of veterinary health to bring us the latest on nutrition and feeding practices. Our veterinary partners help us create healthy nutrition programs, develop new product offerings and keep our pet owners informed on overall animal wellness.

FRUITBLEND PELLET FOOD FOR SMALL BIRDS

Product Code	Wt	MRP (incl. taxes)
81440	200 g	₹ 375

TETRA REPTOMIN STICKS

Product Code	Wt	MRP (incl. taxes)
T713151	100 ml/22 g	₹315

It is a balanced and nutrient-rich complete food for adult turtles. The food contains 36% high-quality protein.

This is supplemented by the optimal calcium - phosphorus ratio to keep shells healthy and bones strong.

The specially-developed food formula also reduces unpleasant tank odours and is made with natural ingredients.

This means that the food contains no colourants.

They are specially adapted to the requirements and eating habits of adult turtles, making it easier to feed them.

TETRA REPTOMIN ENERGY

Product Code	Wt	MRP (incl. taxes)
T713145	100 ml / 34 g	₹425
T713166	250 ml /85 g	₹825

It is a balanced and nutrient-rich supplementary food for turtles.

The high content of krill and shrimp ensures that the feed is rich in unsaturated fatty acids (Omega 3).

These natural fats are high-quality energy sources and so promote metabolism and strengthen turtles' immune systems.

The optimal calcium-phosphorus ratio promotes healthy shells and strong bones.

The specially-developed food formula is made with natural ingredients.

This means that the food contains no colourants.

TETRA REPTOMIN

Product Code	Wt	MRP (incl. taxes)
T708635	250 ml/ 55 g	₹600
T708639	1 l/220 g	₹1,800

ReptoMin is a balanced and nutrient-rich complete food for adult turtles.

The food is made with natural ingredients and supports a healthy digestion.

Contains 36% high-quality protein. Healthy shells and strong bones through an optimal calcium - phosphorus ratio.

Special odour-reducing formula.

No colourants.

Special worm shape sticks for species appropriate feeding.

TETRA TORTOISE

Product Code	Wt	MRP (incl. taxes)
T709037	250 ml/50 g	₹800
T708997	500 ml/100 g	₹1,400

Staple food for the species-appropriate feeding of all tortoises.

Contains all essential fibres and is highly enjoyed by the reptiles.

For natural growth and long-term health.

Contains a multivitamin complex and minerals to strengthen resistance to disease.

Balanced fibre, protein and calcium-phosphorous ratios for healthy growth and natural shell and bone formation.

Ideal for both young and fully-grown green iguanas and herbivorous reptiles.
