The OXBOW DIFFERENCE

From the start, small mammal nutrition and care has been our specialty. Whether we are hard at work growing quality products, a vibrant community, or a better world, we do it all in an effort to celebrate and inspire the love and care of small animals. Our Timothy hay-based formulas and lifestage nutrition have defined the way small animals are fed today, and are recommended by leading veterinarians worldwide. Looking forward, we'll continue to provide the products, knowledge, and support pet parents need to care for their littlest companions.

QUALITY ASSURANCE

Oxbow's commitment to quality starts in the field. We work hand-in-hand with our network of expert hay growers to ensure that the hay produced for Oxbow has all the premium attributes we require and our customers expect. When hay arrives at Oxbow, our quality assurance process has only just begun. Hay is graded, analyzed, and altogether scrutinized before it ever enters our packaging facility. Inside our facility, our skilled production team hand-sorts all of the highest graded hay, removing less premium portions and putting the best in the bag. Only when our end product meets the approval of pets is our quality commitment complete. The same level of quality assurance and testing practiced on Oxbow hay applies across our entire product line. Testing on all products and ingredients is multi-faceted; only the best products enter the market.

PRODUCT INNOVATION

Over the years, Oxbow has been "first to market" time and again with products that are now industry standards. Innovation has always been a guiding principle in the way we do business. The key to our success is developing and introducing solely products we truly believe in, with no exceptions. This tradition continues today as our product development team works hand-in-hand with leading exotics veterinarians and nutritionists on new and innovative nutrition and care products for small pets.

We're here
to grow happy
customers, healthy
pets, and a better
world.

Fortified Foods

SPECIES AND AGE-SPECIFIC FORMULAS FOR SMALL PETS

Optimal daily nutrition comes from balanced meals chock full of essential vitamins and minerals in every bite that will keep your pet's body healthy and strong.

From our flagship Essentials line, to our USDA Certified Organic Bounty line, to the aromatic, enticing Garden Select line, pet owners can choose from a variety of Oxbow's premium, high quality foods. All Oxbow foods are made with purposeful, premium ingredients and are 100% uniform to prevent the unhealthy selective eating habits that come with muesli and foraging mixes. These fortified foods provide essential vitamins, minerals and nutrients small pets need to thrive, ensuring complete nutrition in every bowl, every bite, every time!

WHY CHOOSE

Oxbow's fortified food?

Uniform pelleted formula prevents selective eating

No refined sugars, artificial colors, or artificial preservatives

Formulated with the guidance of leading exotics veterinarians

Species and lifestage specific formulas

Essentials

Farm Fresh Hay

PREMIUM, HIGH-FIBER FORAGE
FOR HEALTH & ENRICHMENT

High-quality grass hay is the cornerstone of small herbivore health. Hay helps prevent obesity and digestive issues, and promotes dental health. Our extensive line of premium, high-fiber hays meets the needs and taste preferences of all herbivores, making mealtime fun and providing many health benefits pets need to thrive. Oxbow hays undergo rigorous quality assurance testing and are hand-sorted prior to packaging. From plant to pet, our hays meet the highest standards time and time again.

WHY CHOOSE

Oxbow's premium hay?

Expertly grown in ideal climates across our family of farms

Carefully hand-sorted and packaged by dedicated experts

Gently processed and de-dusted to remove fine particles

Extensively quality tested from plant to pet

70%

of every small herbivore's diet should consist of high-quality grass hay. Hay should be offered "free choice" – available to pets at all times. Young animals can be fed unlimited alfalfa, but adults should only get a pinch as a treat!

ALFALFA HAY

Hay Products

Product Code : 440107

Weight : 425 g

Sweet, soft Oxbow Alfalfa Hay is a legume hay that is high in fiber, protein, and digestible energy. Alfalfa hay is the ideal hay for growing, pregnant, or nursing pets. Or, offer to your rabbit, chinchilla, guinea pig or other small pet as a treat anytime.

Benefits of consuming a variety of hays include:

- Helps prevent picky eating
- Supports key nutritional needs
- Keeps mealtime fun & enriching
- Encourages natural foraging behaviors
- Strengthens the bond between owner and pet

- Sweet taste and soft texture
- Ideal for growing, pregnant, or nursing pets
- Grown specifically for small pets
- High in fiber for digestive & dental health
- Premium Oxbow quality

Ingredients

- Alfalfa Hay

DAILY FEEDING DIRECTIONS

For Rabbits, Guinea Pigs, Gerbils, Hamsters, Rats, Mice and Chinchillas

Growing, pregnant, or nursing pets: Place large handfuls of alfalfa hay in your pet's habitat daily.

Mature pets: Offer a pinch of alfalfa as a treat. Mix different grass hays together to enrich your pet's diet. Try all tastes and textures to discover your pet's favorite.

Expertly grown in ideal climates across our family of farms

Carefully hand-sorted and packaged by dedicated experts

Gently processed and de-dusted to remove fine particles

Critical Care® HERBIVORE (ANISE)

Supplements

Product Code : 470100

Weight : 141 g

Developed with the assistance of top exotics veterinarians and nutritionists, Critical Care is the industry standard in recovery nutrition for herbivores with poor nutritional status resulting from illness or surgery. Critical Care contains all the essential nutrients of a complete diet, as well as high-fiber timothy hay to support proper gut physiology and digestion.

- Powdered formula mixes easily to desired consistency
- Highly versatile – can be tube fed, assist-fed by syringe or spoon, or self-fed by bowl or as top dressing
- High in fiber; low in carbohydrates
- Contains readily-absorbable chelated minerals and beneficial prebiotics
- No refined sugars, artificial preservatives or simple carbohydrates

Ingredients

• Timothy Grass Meal • Soybean Hulls • Soybean Meal • Wheat Germ • Xanthan Gum
 • Potassium Chloride • Salt • L-Ascorbyl-2-Polyphosphate (Vitamin C) • Soybean Oil
 • Flaxseed • Magnesium Sulfate • Calcium Chloride • Papaya • Pineapple • Cane Molasses
 • Natural Flavor • DL-Methionine • L-Glutamine • Oat Groats • Wheat Middlings
 • Sodium Bentonite • Yeast Culture (dehydrated) • Fat Product • Hydrolyzed Yeast
 • Inulin • Mixed Tocopherols (preservative) • Choline Chloride • Vitamin E Supplement
 • Zinc Sulfate • Zinc Proteinate • Niacin • Copper Sulfate
 • d-Calcium Pantothenate • Vitamin A Supplement • Manganous Oxide • Riboflavin Supplement
 • Biotin • Thiamine Mononitrate • Copper Proteinate • Sodium Selenite
 • Manganese Proteinate • Pyridoxine Hydrochloride • Folic Acid • Vitamin D3 Supplement
 • Cobalt Carbonate • Vitamin B12 Supplement • Calcium Iodate • Rosemary Extract

DAILY FEEDING DIRECTIONS

Shake well before using. Mix 1 part Critical Care® with 2 parts warm water to the desired consistency. The volume of water may be adjusted depending on feeding method. Herbivorous mammals: Mix 3 Tbsp per kg of body weight daily. (1 Tbsp is equal to approximately 9 grams.) Herbivorous reptiles: Mix 1 Tbsp per kg of body weight daily. Amounts are general guidelines. Divide into 4 to 6 feedings unless specified by your veterinarian. Water should be available to the animal at all times. Prepare fresh at each feeding; discard after 24 hours. Store in a cool, dry place.

Natural Science Supplements

HEALTHY & DELICIOUS TO SUPPORT BONDING & WELLBEING

Why are supplements important? Pets are living longer lives thanks to proper nutrition and care, and more pet parents are taking their small pets to the vet than ever before. The most common ailments vets see with small animals are related to digestive, urinary, joint, and skin and coat issues. As small pets age, vets also see more chronic, recurring health issues that need support.

Even with a balanced diet, some pets require a little extra support to be at their best. Natural Science supplements are specifically formulated with premium herbal ingredients to support different health and wellness needs in small pets. Natural Science supplements are made with high-quality Timothy Hay and are highly palatable.

NATURAL SCIENCE DIGESTIVE SUPPORT

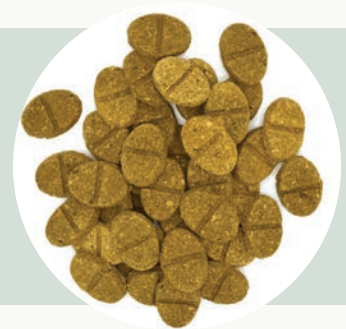

Supplements

Product Code : 471080

Weight : 120 g

High fiber support for your pet's digestive tract. Natural Science Digestive Support contains high fiber Timothy hay and various herbal ingredients to support the digestive health of rabbits, guinea pigs, chinchillas, rats, and other small pets. Chicory root supports the growth of beneficial bacteria in the GI tract while Ginger Root supports gastric motility.

- High fiber support for your pet's digestive tract
- Chicory root supports the growth of beneficial bacteria in the GI tract
- Ginger Root supports gastric motility with anti-inflammatory properties
- High fiber Timothy hay supports a healthy digestive system
- Formulated with the guidance of leading veterinarians and nutritionists
- Chamomile exerts anti-inflammatory and immune stimulan properties

Ingredients

- Timothy Grass • Barley Flour • Oat Groat Flour • Cane Molasses • Flax Seed Meal
- Chamomile • Fenugreek Seed • Brewers Dried Yeast • Dried Chicory Root (Source of Inulin) • Ginger Root • Guar Gum • Hydrolyzed Yeast • Mixed Tocopherols (preservative)
- Rosemary Extract

DAILY FEEDING DIRECTIONS

For Rabbits, Guinea Pigs and Chinchillas

0-1 lb: 1/2 tab per day

1-4 lb: 1 tab per day

4 lb & over: 2 tabs per day

Rats (all weights): 1/4 tab per day
