REX® 100% WHEAT GERM OIL

REX® 100% Wheat Germ Oil can fill in where your pet food leaves off by supplying your pet with natural vitamin E and Essential Fatty Acids (EFA'S), Both have received a lot of attention recently due to the positive effects they can have on your pets skin and coat as well as their over all health and well being.

The benefits of including REX® 100% Wheat Germ Oil in an animal's diet have been documented for more than 65 years. Not many supplements on the market today can make that claim!

Is REX® Oil Different from Other Oils on the Market?

Yes, many oils on the market today contain wheat germ oil but only a very small percent. The oil is combined with refined nutritionally deficient oil, which makes it a blend. Blended oils require artificial preservatives. REX® Oil is 100% unrefined wheat germ oil and contains natural vitamin E which acts as a preservative.

Daily Feeding Directions

As with all nutritional supplements, under most conditions it takes several weeks for results to become apparent. Begin feeding 3 to 4 weeks prior to the breeding season or preparing animals for a show. For young or growing animals, dosage may be increased.

Horses	for each 180 Kg	30 ml
Dogs	45 Kg or more	10 ml
	20 Kg to 45 Kg	5 ml
	under 20 Kg	3 ml
Cats		3 ml
Ferrets		1 drop
Birds		2 drops during molting

Testimonial

"My parakeets have that alertness and 'pep' that every fancier wants. REX® Oil gives a wonderful sheen and brilliance, their feathers are lustrous and beautiful, helps during molting."
San Antonio, Texas

"REX® Wheat Germ Oil has helped settle our mares uniformly. We feed it to our stallions too. It is the least expensive and most valuable product in our breeding program."
Souderton, Pennsylvania

"REX® Wheat Germ Oil made coats soft and sleek and healed the eczema and raw skin spots which had plagued several of our cats."
Stamford Connecticut

I am very impressed with the results of "REX® Wheat Germ Oil. My Stud colt shines like glass and I can't wait to take him into the show ring."
Delanson, New York

"All around performance improved—more alert and animated. Coat enormously improved, shiny and healthy. Dry skin condition prior to REX® eliminated. He has more endurance and is anxious to go on. I enthusiastically recommend REX® Wheat Germ Oil."
Elmira, New York

"In my 40 years of breeding and raising dogs, I consider REX® Wheat Germ Oil the best thing I ever experienced for keeping a dog in good condition."
Herrin, Illinois

"I have seven ferrets that love REX® Wheat Germ Oil. Once I started putting the oil on their food it took only a month to see the change. I noticed their fur was softer and shinier, my white ferret was so shiny he looked silver! I wish I had known about REX® sooner."
Salina, Kansas

REX® 100% WHEAT GERM OIL

Nutritional profile

*Linoleic Acid	50.0%
Oleic Acid	15.7%
Linolenic Acid	5.9%
