

# Taste of the Wild

**THE BALANCED DIET  
THAT NATURE INTENDED**

# WELCOME TO THE WILD

The wolf. The fox. The mountain lion.  
The wild cat. The ancestors of our now-domesticated dogs and cats were built to live in the wild. Although our pets no longer have to survive in the wild, modern science proves that they still share the DNA of those who do. That's why we make Taste of the Wild: premium, complete pet foods based on the protein sources from your pet's ancestral diet. Support your pet's natural vitality and satisfy their instinctual cravings with the balanced diet nature intended.

**#1** **INGREDIENT**  
**IS FROM REAL MEAT**  
**FISH OR FOWL**

Taste of the Wild is a family-owned brand.  
Proudly made in the USA with globally sourced ingredients.

## **DOGS AND CATS CRAVE THE FLAVOURS THEIR ANCESTORS ONCE DID. GO AHEAD AND INDULGE THEM.**

Taste matters on a primal level to even the most domesticated dogs and cats. Unique proteins like smoked salmon, roasted quail, smoked turkey, duck and trout combine with real vegetables, fruits and legumes for flavour options you will only find in Taste of the Wild pet foods. With recipes for dogs and cats, Taste of the Wild has something to satisfy the instinctual craving of any dog, cat, puppy or kitten.

## **TASTE OF THE WILD IS A FAMILY-OWNED BRAND.**

Taste of the Wild was created by one family who believes that every pet deserves proper nutrition and every pet owner deserves a fair value. We don't make anything we wouldn't feed to our own pets. It's the standard to which all Taste of the Wild products are held, and we're happy to share it with you and your family. Welcome to the pack.

## CAREFULLY SELECTED. METICULOUSLY PREPARED.

All Taste of the Wild recipes are meticulously prepared using only carefully selected ingredients from a number of trusted suppliers. While many pet food manufacturers engage in a bidding system with suppliers, constantly switching sources, we choose to foster long-term relationships with ours. This allows us to keep a close eye on quality and safety standards as well as keep our prices in check by creating efficiencies.

## SAFETY FIRST. QUALITY ALWAYS.

You have high standards for the food your pet eats, so we have high standards for how we make it. Every formula is designed by our veterinarians and nutritionists to meet specific nutritional requirements for dogs and cats. Every product is tested for quality and safety before leaving our facilities. Some of our protocols include:

- 1,340 mycotoxin tests per week
- 1,600+ microbiological tests per week
- 225 oxidative stability tests on fats and oils per month
- 7,500+ ingredient nutritional tests per month
- 56,000+ finished product nutritional tests per month

## MADE IN THE USA

Our priority is to source ingredients of exceptional quality. All our pet food is made in the USA; sometimes, ingredients come from global suppliers. Whether global or local, we form close relationships with all our suppliers and work with them only after a careful vetting process.

# FEATURES GLOSSARY

## UNIQUE PROTEINS

We take care to ensure our ingredients are sustainably and humanely raised, which is why you'll find proteins from animals that are cage-free, pasture-raised, spring-fed, wild or sustainably sourced. Our highly digestible proteins in unique flavour combinations offer amino acid and fatty acid profiles to help support muscles, organ function, the immune system, healthy skin and a shiny coat.

HIGH PROTEIN CONTENT

PROTEIN BLEND FOR OPTIMAL AMINO ACID PROFILE

PASTURE-RAISED LAMB

ROASTED QUAIL, ROASTED DUCK & SMOKED TURKEY

CAGE-FREE QUAIL & CAGE-FREE DUCK

SPRING-FED TROUT & SUSTAINABLY SOURCED SALMON

**DRIED CHICORY ROOTS** – This source of prebiotic fibre provides fuel for the beneficial probiotic bacteria in the digestive system.

**LEGUMES** – These nutrient-dense ingredients, including garbanzo beans, peas and lentils, are excellent sources of protein, fibre and carbohydrates.

**ANTIOXIDANTS** – Antioxidants help protect your pet's overall good health. Vegetables and fruits provide antioxidants, and guaranteed levels of zinc and vitamin E help support cellular health.

**DHA** – Salmon oil is a source of DHA, an omega-3 fatty acid that helps support brain and vision development.

**DIGESTIVE SUPPORT** – Fibre from garbanzo beans helps promote digestive health, while prebiotic fibre from dried chicory roots provides fuel for the beneficial probiotic bacteria in the digestive system.

**EGG-FREE** – Taste of the Wild Pacific Stream Canine and Puppy formulas are made without eggs or egg products, which may be suitable for dogs who have a sensitivity to eggs.

**OMEGA FATTY ACID BLEND** – Balanced levels of omega-6 and omega-3 fatty acids work together to support healthy skin and a shiny coat.

**SMALL KIBBLE SIZE** – The small kibble size of our puppy and small breed formulas is easy for little mouths to chew, while the crunchy texture helps keep teeth clean.

**TAURINE** – This amino acid is beneficial for all cats and helps to maintain healthy heart and eyes.

**NO GRAIN** – These grain-free formulas provide your pet with nutrition for health and vitality.

**CHELATED MINERALS** – During the digestion process, minerals are attached to proteins for absorption from the digestive tract. These recipes include proteinates to help promote easy absorption for desired mineral nutrition.

# Pacific Stream Puppy Formula

## with Smoked Salmon

### Composition

salmon (17%), ocean fish meal, sweet potatoes, potatoes, peas, pea protein, canola oil, tomato pomace, smoked salmon (4%), salmon meal (2%), salmon oil (a source of DHA), minerals, dried chicory roots, *Yucca schidigera* extract, tomatoes, blueberries, raspberries.

### Analytical Constituents

Protein	27.0%
Fat Content	15.0%
Crude Fibres	5.0%
Crude Ash	7.3%
Moisture	10.0%
Omega-6 Fatty Acids	2.4%
Omega-3 Fatty Acids	0.3%
DHA (Docosahexaenoic Acid)	0.05%

### Additives (per kg)

<b>Vitamins</b>	
Vitamin A	11,500 IU/kg
Vitamin D <sub>3</sub>	865 IU/kg
Vitamin E	175 IU/kg
Taurine	0.1%
<b>Trace Elements</b>	
Iron (as iron(II) chelate of amino acids hydrate)	10.35 mg/kg
Copper (as copper(II) chelate of amino acids hydrate)	1.2 mg/kg
Iron (as iron(II) sulphate monohydrate)	20.7 mg/kg
Copper (as copper(II) sulphate pentahydrate)	2 mg/kg
Iodine (as potassium iodide)	1.7325 mg/kg
Manganese (as manganese chelate of amino acids hydrate)	2.1 mg/kg
Manganese (as manganese (II) oxide)	7.7 mg/kg
Manganese (as manganous sulphate monohydrate)	4.48 mg/kg
Zinc (as zinc chelate of amino acids hydrate)	11.25 mg/kg
Zinc (as zinc sulphate monohydrate)	26.625 mg/kg
Selenium (as sodium selenite)	0.018 mg/kg
<b>Sensory additive:</b> natural flavour	

A complete pet food for puppies and suitable for all life stages.

### Feeding Guide

### Amount to feed per day

Pet size	6 - 12 weeks	3 - 4 months	5 - 7 months	8 - 12 months	Adult Dogs
1 - 2.25kg	100 - 133g	75 - 125g	66 - 75g	50 - 66g	33 - 50g
2.25 - 4.5kg	133 - 225g	125 - 200g	75 - 133g	66 - 100g	50 - 100g
4.5 - 9kg	225 - 366g	200 - 325g	133 - 225g	100 - 175g	100 - 150g
