

TIMBER

VENEER

- All products are designed for indoor use and intended purposes.
- Do not place furniture near heating or cooling sources, this can result in splitting.
- Never drag your furniture piece, always lift when moving.
- Regularly dust your piece with a clean, soft, lint-free cloth.
- Avoid placing hot objects directly on the timber surface; always use coasters / place mats.
- Wipe any spills immediately with a clean, soft, slightly damp cloth.
- Any sticky residue can be removed with a diluted solution of warm water and natural soap, followed by a clean, damp cloth.
- The area should then be wiped immediately in the direction of the wood grain with a clean, soft cloth until completely dry.
- Never use a soaking wet cloth.
- Do not use sandpaper or abrasives on your veneer product.
- Avoid direct sunlight for prolonged periods, as this can cause discolouration.
- Regularly rearrange any items placed on top of your piece, always lift and never drag items across the surface.
