# Mist Controlling

## Power On Mist:

After power is connected, press the 'MIST' button. You will hear one beep and it will be set at 1 hour misting time.

## Set Mist Time Mode:

Short press 'MIST' button and yellow light will cycle on 1H/3H/6H/ON, it means the mist time set on 1 hour/3 hours/ 6 hours/ continuous on.

## Set to Mist Continuously at 8-10 Hours:

Short press 'MIST' button till the light stays on 'ON'.

## Adjust Mist Density:

Short press 'HIGH/LOW' button, one beep for strong mist, two beeps for weak mist.

## Power Off Diffuser:

Long press 'MIST' button for two seconds, you will hear two beeps, mist and light both turn off and it means the diffuser has been turned off completely.

# Light Controlling

## Power On :

After power is connected, short press the 'LIGHT' button once. The LED light will cycle from dim to bright gradually.

## Cycle Color:

When short pressing 'LIGHT' button, the color cycles automatically every 3 seconds from dim to bright.

## Fix Light At One Color:

Press 'LIGHT' button again after the light cycling. It will fix at one color in dim or bright mode.

## Fix At Your Favorite Color:

Press 'LIGHT' button once when light cycles to your favorite color and the light will be fixed.

## Adjust Color Brightness Or Dim:

Press 'LIGHT' button twice after powering the diffuser on and each time you press will adjust the color to a bright or dim status.

## Power Off Light:

Long press the 'LIGHT' button for two seconds, light will be turned off alone (mist is still on).

# Maintenance & Notice

## Clean & Maintenance

Please clean the diffuser per week as follows:

- Unplug the diffuser and pour out the remaining water from 'DRAIN SIDE'.
- Add in 2-3 drops of vinegar to 100ml warm water (up to 70°C)
- Leave diffuser for 5 minutes and gently shake and pour out water.
- Wipe the diffuser with a dry soft cloth.
- If the diffuser will not be used for a long time, please keep it clean and dry.

## Notice

- When filling water, do not exceed the max line marked on water tank.
- Please power off diffuser first before adding water.
- Diffuser will beep two times when waterless.
- Please use pure natural essential oils.
- If the diffuser is leaking for any reason, please unplug the unit and pour out remaining water, shake diffuser gently to drain water inside, then dry for more than 24 hours.

# Fast QAs

Q: Can I set to run light on only or mist on only?

A: Yes. Long press 'LIGHT' button for 2 seconds and light powered off, mist runs only. Long press 'MIST' button for 2 seconds and diffuser turned off, press 'LIGHT' once for light on only.

Q: what's the 5 in 1 function of diffuser?

A: Diffusing aroma fragrance, humidifying air, purify air, night light and skin moisturizing.

Q: Does not diffuse strong enough mist.

A: It is set at a best humidity value for body to breathe in, it's wrong that the more mist it sprays, the better the diffuser is.

Q: Essential oil smells weaker for this 300ML than 100ml with same drops oil.

A: If smell is strong or weak is affected by proportion between water and essential oil. Normally per 100ml water match 2-3 drops essential oils. 300ml should add about 5-8 drops. Weak smelling oils such as lemon could use drops more.

Q: Is the diffuser dual voltage up to 240V?

A: Yes. Its input dual voltage is at AC 100-240V, 50-60Hz and output voltage is DC 24V, 500mA.

Q: How many square feet does this cover?

A: It covers a room under 129-215sq.ft.

Q: Is it BPA free?

A: Yes, it is made by PP&ABS, the same materials with baby bottles.
