

Injector-Kleen™

Gasoline Fuel System Maintainer

Maintain Peak Performance of Your Gasoline Engines

Gasoline and ethanol combustion byproducts stick to valves and foul injectors eating away at engine performance and efficiency. This results in additional deposit buildup and potential damage from pre-ignition. Keep your gasoline fleet running at peak performance with Injector-Kleen. Injector-Kleen is a powerful gasoline fuel system maintainer that removes combustion deposits, gums and varnishes to maintain optimum horsepower, emissions and fuel economy. It protects against rust and corrosion, mitigating the harmful effects of ethanol gasoline blends. Use Injector-Kleen continuously in bulk storage tanks at a 1:2500 ratio to maintain fuel quality and fleet performance. For quicker engine cleanups and results, use Injector-Kleen at a 1:250 ratio (12 oz per 21 gallons of gasoline).

BENEFITS

- Restores engine power and performance
- Reduces fuel injector, intake valve, and combustion chamber deposits
- Helps reduce surging and rough idling
- Prevents rust and corrosion in tanks and fuel systems
- Helps remove water to fight ethanol phase separation and gas line freezing
- Safe for use in all gasoline engines
- Not recommended for fuels containing greater than 50% ethanol

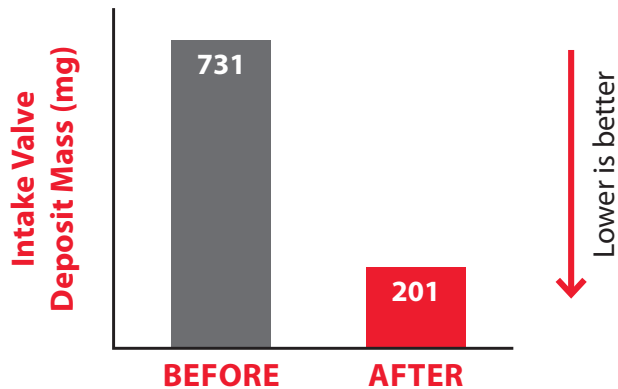

Up to a **39% reduction** in cylinder top and piston top combustion chamber deposit thickness with single treatment at 1:250.

BEFORE

AFTER

Up to a **73% reduction** in intake valve deposit mass with single treatment at 1:250.

- **Increase Uptime**
- **Optimize Efficiency**

About Hydrotex®

Hydrotex® is a manufacturer and distributor of high performance lubricant and fuel improver solutions. As an employee owned company, we help our customers develop sustainable solutions designed to help improve system reliability, save energy, limit pollution, extend fixed asset life, reduce maintenance costs and improve fuel efficiency. Our products and services leverage over 80 years of innovation resulting in superior lubrication solutions.

The Hydrotex Warranty

When properly stored and used in accordance with instructions, any material not satisfactory will be replaced with any product in our line on a dollar for dollar basis provided the account is paid in full when due, and Hydrotex is notified, in writing, within 12 months of the date of the order by the customer.

For optimal results, use with:

HYFILM® LEO EPG

HyFilm LEO EPG uses state-of-the-art technology to protect modern gasoline engines while maximizing fuel economy and extending service intervals. Designed to meet the rigorous demands of modern high output turbocharged and supercharged gasoline engines, HyFilm LEO EPG is also backward compatible to provide lubrication across the entire range of gasoline engines. Available in SAE 5W-20 and 5W-30.

HYPLEX™

Ensure maximum protection of your wheel bearings, chassis points and fifth wheels with HyPlex automotive grease. This multi-functional high performance grease is formulated to excel under conditions of high heat, high speed, vibration, moisture and heavy loads. Grade 2 is NLGI GC-LB certified.

HYDRO-SORB II™

Protect your fuel tank and fuel system from the damaging effects of water contamination by using Hydro-Sorb II, a powerful water dispersing co-solvent that keeps your fuel tanks dry. Hydro-Sorb II disperses moisture on the molecular level, keeping it safely held in solution with the fuel until it can be sent out the exhaust with the combusted fuel.
