

Ultra-Kleen™ 555

White Food Grade Grease

Are you tired of losing bearings due to daily wash downs?

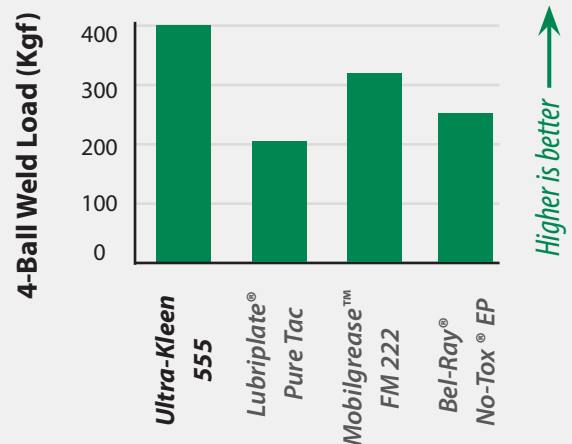

Keeping your processing and packaging equipment operating efficiently is your responsibility and we know your equipment takes a pounding. After a hard day of starts, stops, and shock loads it gets blasted by its worst enemy... water. What can you do to better protect your assets?

Using Ultra-Kleen 555 White Food Grade Grease protects your machines' bearings by maintaining a protective lubricant coating on machine components and keeping water out of bearing contact zones. Formulated with adhesive/cohesive TK-5® polymers, Ultra-Kleen 555 stays in place, so parts stay protected. Excellent for most medium to high speed bearing applications, Ultra-Kleen 555 is designed specifically for your food and beverage machines that require a tacky, tenacious grease.

BENEFITS

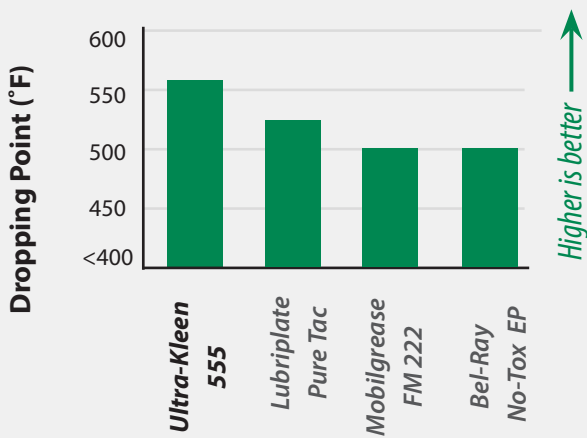

- **Anti-wear protection reduces friction and extends equipment life**
- **Extreme pressure protection**
- **Exceptional high load performance**
- **Excellent water washout & resistance to corrosion**
- **Superior oxidation inhibition**
- **Tackiest grease in the Ultra-Kleen Series**

HIGH TEMPERATURE PERFORMANCE

TACKINESS

For optimal results in your food processing or packaging manufacturing facility, let us show you how our “Fit for Purpose” lubricants can save you money:

ULTRA-KLEEN™ XPL

Food Grade Lubricants

Ultra-Kleen XPL Series premium lubricants offer extreme performance and extended life to provide industrial performance and food grade safety. Ideal for heavily loaded gearboxes, hydraulic systems, and high-duty cycle compressors in food processing and packaging facilities.

ULTRA-KLEEN™

Food Grade Lubricants

Ultra-Kleen Food Grade Lubricants are engineered to ensure optimum equipment performance. The Ultra-Kleen product family includes a full line of food grade lubricants covering a wide range of applications including hydraulic systems, compressors, gearboxes and bearings as well as specialty applications such as freezers, ovens, chains and pneumatics.

Majestic™

Food Grade Process Oils & Specialty Fluids

From system flushes to cooker oils, Hydrotex Majestic Food Grade Oils and Fluids provide an economical alternative when shorter drain intervals are necessary due to environmental conditions. Our one time use and pass through process fluids can save you money without compromising performance or protection.

YOUR LUBRICATION CONSULTANT

Our Lubricants for a Healthier Planet product line improves worker and consumer safety, prevents harm to the environment and supports sustainable processes. For more information please contact your Hydrotex Representative.
