## Diesel Fuel Improvers

	<b>Power Kleen</b> Diesel Fuel Improver	<b>0021</b>	Power Kleen is a multi-functional diesel fuel improver specially formulated to protect, clean and lubricate fuel system components while improving fuel economy and reducing emissions. Boosts cetane up to 8 numbers.	<b>Rapid Clean-Up/Generators</b>	<b>1:500</b>
				<b>Clean-Up</b>	<b>1:1000</b>
				<b>Keep Clean</b>	<b>1:2000</b>
	<b>Power Kleen Supreme</b> Diesel Fuel Improver	<b>0246</b>	A concentrated version of Power Kleen designed for convenient treatment of 7,500 gallon tanker truck deliveries. Formulated to protect, clean and lubricate fuel system components while improving fuel economy and reducing emissions. Boosts cetane up to 8 numbers.	<b>Rapid Clean-Up</b>	<b>1:750</b>
				<b>Clean-Up</b>	<b>1:1500</b>
				<b>Keep Clean</b>	<b>1:3000</b>
	<b>Power Kleen Arctic</b> Cold Weather Diesel Fuel Improver	<b>0024</b>	Power Kleen Arctic offers the additional benefit of cold flow improvers and de-icers while still providing fuel cleanliness and lubricity for improved fuel economy and reduced emissions. Boosts cetane up to 6 numbers, and treats all diesel fuels and bio-diesel blends to temperatures as low as -40°F*.	<b>Rapid Clean-Up/Generators/Arctic Cold</b>	<b>1:500</b>
				<b>Clean-Up/Extreme Cold</b>	<b>1:1000</b>
				<b>Keep Clean</b>	<b>1:2000</b>
	<b>Power-Flo</b> Concentrated Diesel Fuel Winter Treatment	<b>0241</b>	Power-Flo is a concentrated anti-gel and de-icer that keeps fuel flowing in low temperatures. Power-Flo enhances fuel lubricity, and treats all diesel fuels and bio-diesel blends to temperatures as low as -40°F*.	<b>Temperatures below -30°F*</b>	<b>1:750</b>
				<b>Temperatures below -15°F*</b>	<b>1:1500</b>
				<b>Temperatures below 32°F*</b>	<b>1:3000</b>
	<b>Hydro-Sorb II</b> Fuel Tank Water Remover	<b>0244</b>	Hydro-Sorb II is a powerful co-solvent that disperses moisture on the molecular level, keeping it safely held in solution with fuel until it can be sent out the exhaust pipe. Hydro-Sorb II protects against corrosion, and prevents fuel line freezing and filter icing.	<b>Bulk Tank</b>	<b>1:1000</b>
				<b>Vehicle Tank</b>	<b>1:500</b>
	<b>Lubricity Plus</b> Diesel Fuel Lubricity Improver	<b>0248</b>	Lubricity Plus is a concentrated diesel fuel additive designed to improve the lubricity of bulk fuel. Reduces wear scar by as much as 120 microns and lowers coefficient of friction by as much as 50%.	<b>Tanker Trucks &amp; Bulk Fuel</b>	<b>Consult with Technical Response Team</b>
	<b>Essentialube</b> Engine Treatment & Flush	<b>0001</b>	Essentialube lubricates as it cleans, reducing fuel system and engine wear while safely dissolving deposits. Essentialube restores engine power and performance, reduces smoking and oil consumption, stabilizes fuel and oil, and disperses moisture to prevent corrosion.	<b>Fuel System Clean-Up</b>	<b>1 ounce Essentialube per gallon fuel</b>
				<b>Fuel System Keep Clean</b>	<b>1 ounce Essentialube per 2 gallons fuel</b>

\*Temperatures are general guidelines only. Diesel fuel quality varies. Hydrotex recommends fuel sampling and analysis to determine ideal treat rates.

## Gasoline Fuel Improvers

	<b>Injector-Kleen</b> <i>Gasoline Fuel System Maintainer</i>	<b>0008</b>	Injector-Kleen is a powerful gasoline fuel system maintainer that removes combustion deposits, gums and varnishes to maintain optimum horsepower, emissions and fuel economy. It protects against rust and corrosion, mitigating the harmful effects of ethanol gasoline blends.	Clean-Up	1:250
				Keep-Clean	1:2500
	<b>Injector-Kleen 3000</b> <i>Total Gasoline Fuel System Cleaner</i>	<b>0088</b>	Injector-Kleen 3000 is a powerful one-tank gasoline fuel system cleaner that restores lost power, improves emissions and increases fuel economy. Treats combustion related problems such as rough start or idle, poor acceleration, engine surging, misfires, engine knock or ping, and low speed pre-ignition.	Rapid Clean-Up	One 12 ounce bottle per 21 gallons fuel
	<b>Hydro-Sorb II</b> <i>Fuel Tank Water Remover</i>	<b>0244</b>	Hydro-Sorb II is a powerful co-solvent that disperses moisture on the molecular level, keeping it safely held in solution with fuel until it can be sent out the exhaust pipe. Hydro-Sorb II protects against corrosion, and prevents fuel line freezing and filter icing.	Bulk Tank	1:1000
				Vehicle Tank	1:500
	<b>Essentialube</b> <i>Engine Treatment &amp; Flush</i>	<b>0001</b>	Essentialube lubricates as it cleans, reducing fuel system and engine wear while safely dissolving deposits. Essentialube restores engine power and performance, reduces smoking and oil consumption, stabilizes fuel and oil, and disperses moisture to prevent corrosion.	Fuel System Clean-Up	1 ounce Essentialube per gallon fuel
				Fuel System Keep Clean	1 ounce Essentialube per 2 gallons fuel
