ITS INCLUSION HERE IS TO PROVIDE A REFERENCE FOR HOW THIS BPIR SUMMARY WAS GENERATED AS WELL AS TO HELP SUMMARY CREATORS UNDERSTAND THE PERFORMANCE CLAUSES SUGGESTED BY BPIR READY.

## BPIR Ready selections

Category: Basins, baths and bidets

YES NO

Capable of being permanently concealed

## Building code performance clauses

### B2 Durability

B2.3.1

Building elements must, with only normal maintenance, continue to satisfy the performance requirements of this code for the lesser of the specified intended life of the building, if stated, or:

- (c) 5 years if: the building elements (including services, linings, renewable protective coatings, and fixtures) are easy to access and replace, and failure of those building elements to comply with the building code would be easily detected during normal use of the building.

### F2 Hazardous building materials

**F2.3.1** The quantities of gas, liquid, radiation or solid particles emitted by materials used in the construction of buildings, shall not give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space.

### G13 Foul water

G13.3.1 The plumbing system shall be constructed to: a. convey foul water from buildings to a drainage system, b. avoid the likelihood of blockage and leakage, c. avoid the likelihood of foul air and gases entering buildings, and d. provide reasonable access for maintenance and clearing blockages.

G13.3.2 The drainage system shall: a. convey foul water to an appropriate outfall, b. be constructed to avoid the likelihood of blockage, c. be supported, jointed and protected in a way that will avoid the likelihood of penetration of roots or the entry of ground water, d. be provided with reasonable access for maintenance and clearing blockages, e. be ventilated to avoid the likelihood of foul air and gases accumulating in the drainage system and sewer, and f. be constructed to avoid the likelihood of damage from superimposed loads or normal ground movement.
