

## HOW TO ASSEMBLE VTH-500 HAND WRAPPER

1. Take the film holder out from the machine and reverse it in the opposite direction
2. Insert the film holder on the machine.
3. It is possible to adjust the width according to the size of tray and PVC film. There are three holes on the right side of the film holder to adjust the size.  
From the left, 2.95inch (75mm) | 4.13 inch (105mm) | 4.92inch (125mm)
4. Tighten black screws on both left and right side.
5. Put a black screw on the middle hole to adjust the film tension (either left or right side)
6. Done!
