

*Central Florida punk scene's most reliably unreliable liability and go-to journeyman musician for some of the area's most notable punk and hardcore outfits.*

# Tracey Blades

*Tracey Blades* is a venerable stalwart of the Orlando independent music scene entering the third decade of his career.

It was well into his career that he decided to try his hand at song writing.

*Born Losers* (Blades current outfit) is the culmination of all the years of honing his craft and persevering to make him the musician he is today. *Born Losers* is definitely a labor of love. The band represents a culmination of his life, hardships, loves, and experiences.

*Blades* credits his success to his vast musical knowledge. You can hear inspirations such as, The Ramones, Johnny Thunders, The Rolling Stones, Joan Jett, Blaze Foley, and Iggy Pop in his music.

Over the years, *Tracey Blades*, has continued to perform his solo acoustic act that occasionally features various guest musicians (including other members of *Born Losers*).

*Tracey Blades* carries the torch, tirelessly playing Born Losers material solo in bars, coffee shops, on something called "a livestream" and of course: under the lights with his backing stage band of hardened Orlando goons.

That's where he really shines. Under those lights, booze in one hand, a cigarette in the other and a guitar in both.
