

## NOW, IT'S THE PERFECT TIME TO GO WIRELESS!

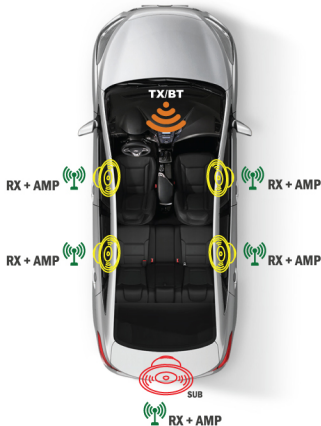

With the super small size, the **CADENZA**'s wireless Hi-Fi Audio Kit is perfect to fit in car, marine, home, or public audio systems.

**Perfect choice for car audio system, Go Cable-Free!**

Use the **CADENZA** wireless Hi-Fi Audio Kit to replace the cable runs, wirelessly transmitting the audio signal to the speakers.

Just connect the BT transmitter to the car amplifier and connect all the receivers to the speakers, then everything is done for music enjoyment.

If wanna upgrade powerful bass, just put one sub-woofer at trunk and connect the receiver, no harsh tear-part and cable running.
