

## SUPREME PERFORMANCE, ROCK-SOLID DURABILITY

### AIRDYNEX™

With a long heritage of innovation and performance, the AirDyneX bike is a classic workhorse that has delivered superior cardio workouts for decades, making it one of the most popular traditional fitness machines in history. And now, this breakthrough fan technology has been precisely refined for greater challenge and customized intensity for today's exercisers.

This ultra-durable gym mainstay withstands the toughest sweat sessions on cardio floors, in small group training, in functional training workouts and at specialty fitness studios.

### OCTANE ADVANTAGES

- 26-blade performance fan
- Performance drive system
- Single-stage belt for instant activation
- Smooth motion
- HIIT training
- Commercial durability
- Calibration technology
- Moisture-repellent, double-coated steel body construction
- Biomechanically correct positioning
- Cordless operation

### INHERENT SUPERIORITY

It's simple to see why the AirDyneX bike is superior. With its custom-designed, 26-blade performance fan and single-stage belt drive, the AirDyneX responds to an exerciser's power, and helps to reduce wasted energy for more efficient, effective workouts.

## PRODUCT SPECIFICATIONS

|                 |  |
|-----------------|--|
| Max user weight | 350 lbs<br>(160 Kg)                                |
| Footprint       | 55" L x 26" W x<br>53" H<br>(140 x 66 x<br>135 cm) |
| Product weight  | 133 lbs (51kg)                                     |

## WARRANTY

|       |          |
|-------|----------|
| Frame | 10 years |
| Parts | 3 years  |
| Labor | 6 months |

Warranty outside the US and Canada may vary.

## BURN MORE CALORIES

Exercisers burn more calories on the AirdyneX compared to a leading competitor fan bike at the same RPM\*. The custom designed performance fan enables them to generate more watt power efficiently. That means greater motivation and results.

\*Engineering internal study versus a leading competitor fan bike at the same RPM. Individual results will vary.

## CONSOLE

The addictive tachometer visually signals how hard exercisers are working and shows the average calorie burn per minute – making it an excellent motivator for them to bury the needle! The calibration technology produces accurate and consistent results from bike to bike, making it ideal for challenges and competitions.

Plus, the digital display simultaneously provides essential stats -- heart rate, RPM, distance, watts and total calories.

## UPPER BODY

The cushioned MultiGrip handlebars let exercisers choose from horizontal or vertical placement options to target different muscles and add variety. Or isolate the upper body using the stationary anti-slip foot pegs with triple-sided grip pads for traction.
