PRACTICE INSET CIRCLE TEMPLATES

ALIGN WITH FOLD

CIRCLE TEMPLATE

Fold 10" square in quarters. Place template on the folds. Use a fabric safe marking tool to trace the curve of the circle. Use scissors or a rotary cutter to cut out the circle.

ALIGN WITH FOLD

BACKGROUND TEMPLATE

Fold 13" square in quarters. Place template on the folds. Use a fabric safe marking tool to trace the curve of the circle. Use scissors or a rotary cutter to cut the circle out of the background square.

ALIGN WITH FOLD

ONE INCH TEST SQUARE

Make sure you print the templates at actual size or 100%. Printers often default to fit-to-page, which will give you templates that are inaccurate. Use the One Inch Test Square to the left to make sure your templates printed at the correct size. Refer to your printer's instruction manual if you have trouble attaining the correct size.
