## Colour Characteristics

Colours are shown as accurately as printing allows. A lightfastness rating and pigment specification is provided for each colour as your warranty of quality.

### Pigment Description

PY = Pigment Yellow  
PO = Pigment Orange  
PW = Pigment White  
PBr = Pigment Brown  
PB = Pigment Blue  
PV = Pigment Violet  
PG = Pigment Green  
PBr = Pigment Brown  
PR = Pigment Red  
LF = Light Fast

### Pigments

○ Transparent ● Semi ● Opaque

Both opaque and transparent pigments are used in the Jo Sonja line. Transparent pigments reflect light differently than opaque pigments, which do not allow the light to pass through. Colours labelled as transparent allow the light to pass through the transparent pigment particles, thus allowing the undercoat to show through. These make wonderful colours for glazing.

### Temperature

↓ Warm ↓ Warm/Cool ↓ Cool

### ASTM Pigment Lightfastness

ASTM 1 – Pigments of excellent lightfastness  
ASTM 2 – Pigments of very good lightfastness

### Family

N = Neutral  
Y = Yellow  
YO = Yellow Orange  
O = Orange  
RO = Red Orange  
R = Red  
RV = Red Violet  
V = Violet  
BV = Blue Violet  
B = Blue  
BG = Blue Green  
G = Green  
YG = Yellow Green
