# “ABOUT US”

At BISTARA LINEN CO, we believe that beautiful products should be available to all at accessible prices. We have over 25 years of experience in the home and textile industry and now our bed and table linen ranges are available. We decided to use 100% european flax linen, stone-washed as the conscious fabric for our bed and table products because linen is one of the most sustainable and durable fabrics.

Our ranges are designed in Australia by our very talented team, and we have our in-house production facility based in India, this gives us control over the manufacturing process to ensure our products are of the highest quality.

Our goal at BISTARA LINEN CO. is to minimize textile waste by repurposing the leftover fabrics into other items, such as bags, shirts, tea towels. By developing these products, we provide employment to under-privileged Indian women.

## MISSION

Our mission is to create a brand that focuses on high quality with premium look & style at an affordable price.  
“Bistara is all about minimalism & sophistication.”
