Required Tools (Not included)

Name	Imperial	Metric
Monkey Wrench	12"	300mm
Open Wrench	7/16"	11mm
Open Wrench	11/16"	17mm

STEP1

Put the holes of **Front Wheel Mount (3)** and **Beam Assembly (1)** aligned, install **4pcs-M10 Outer Hexagon Bolt (2)** and tighten them.

STEP2

Place the components assembled in steps 1 above into the **bottom fixing bracket assembly (6)**, align the holes, install **2pc Long Outer Hexagon Bolt (4)** and **2pc M10 Lock Nut (5)**, and tighten the bolts.

STEP3

Insert the **Support Rod (7)** into the **Bottom Fixing Bracket (6)**, align the holes, install **M10 Low Square Neck Bolt (8)** and **M10 Lock Nut (5)**, and tighten them until the support rod does not move.

STEP4

Insert **Adjustable Support Assembly (9)** into the **Support Rod (7)**, and properly tighten the knob so that it does not slide down.

STEP5

Align the holes of the folding tube with the holes on the vehicle's **2" hitch receiver**, then connect the two parts as shown below. Place an **M16 shockproof bolt (10)**, through the **φ16 Spring Washer (11)**, **φ16 Flat Washer (12)** and the aligned holes. Secure the bolt in place with the **φ3.8 Cotter Pin/Lock (13)** making sure to place the pin through.

- ! The diameter of lock beam should be less than **7mm**.
- ! The lock is not included.

Bike Installation Instructions

! Before placing the bicycle, stand up the support rod in the middle, snap the front tire of the ebike into the fixed frame, place the rear tire in the beam, and then use the ratchet wheel straps to fix the front wheel, rear wheel, and seat tube of the bicycle as shown in the figure below.

Note: Use the ratchet wheel strap to fix and tighten the seat tube or horizontal tube of the bicycle.

Note: Use the ratchet wheel strap to fix and tighten the front wheel of the bicycle.

Note: The rear tire fixing seat needs to be placed in front of the rear wheel.

How to Adjust the Wheel Cradle

1.Pull the cam gear

2.Turn in counterclockwise

3.Slide it

4.Until it against the tire

5.Turn it tighten by clockwise

6.Press it down

Model Name	YOUNG ELECTRIC Sole
Description	2" Hitch 1-Bike Rack
Material	Aluminum & Steel
Maximum Weight Capacity	100lbs
Applicable Vehicles	Vehicles with 2" receiver
Package Size	55.9x13.9x8.3in
Package Weight	37.8lbs

WARNINGS

- Do not overload beyond the bike rack's weight capacity of 100lbs.
- Do not carry more than 1 bike on the carrier.
- The bike rack is not intended for transporting humans or animals.
- If you are planning to load only one bike, it is recommended to place it in the position closest to the vehicle.
- All bikes must be secured properly before operating the vehicle.
- Make sure the front of the bike(s), when mounted, is at or above the bottom of the bumper to avoid damage to the bike(s).
- Do not carry flammable items on the bike rack.
- If using the bike rack to transport electric bicycles, please remove the batteries from the bicycles prior to transporting them. This will help reduce the weight supported by the carrier.
- During long trips, frequently check the straps and bike position, especially if traveling on rough terrain.
- Please do not make alterations to the product, as it can pose potential hazards to your safety.
- Failure to heed these warnings may result in personal injury and/or property damage.
- To prevent serious injury or death, inspect the bike rack for any signs of wear, corrosion and fatigue before each use. Do not use the bicycle rack if parts are bent, broken, deformed or missing. If parts are bent, broken, damaged or missing, remove the rack from your vehicle before operating the vehicle.

Young Electric Warranty Policy

Young Electric is committed to providing our customers with a quality shopping experience, for the products we sell, we provide a 2-year warranty from the date of purchase, which includes non-artificial product defects. This warranty does not cover issues caused by normal wear and tear including (but not limited to) weather, scratches, dents, rust, accidents, unlawful vehicle operation, misuse, abuse, neglect, theft, unauthorized modifications, or unauthorized repair.

No warranty is provided for defects caused by improper fit, improper vehicle installation, installation on an "unsuitable" vehicle, incorrect installation of the bike on the rack, or overloading of the weight limit of the rack. This warranty terminates if the purchaser transfers the product to any other person.

If a product is believed to be defective, the purchaser should directly contact Young Electric Team at 888-933-8899 or through support@youngelectricbikes.com

Disclaimer of Liability: Repair or replacement of a defective product or the issuance of a refund or credit (as determined by

Young Electric) is a purchaser's exclusive remedy under this warranty.

Young Electric shall not be liable for any direct, indirect, consequential, incidental, special, punitive or any other damages in connection with the purchase, use or handling of this product.

Some states do not allow the exclusion or limitation of consequential or incidental damages, and the above limitation may not apply to you. This Limited Warranty gives you specific legal rights, and you may have other rights that vary from state to state.

THANK YOU FOR CHOOSING A YOUNG ELECTRIC HITCH BIKE RACK!

YOUNG ELECTRIC Bike racks are designed to make your bicycles well hitched with stability & safety. Carefully read this Owner's Manual before assembly, it will give you all the information necessary for assembly and adjusting.

YOUNG ELECTRIC works hard to guarantee you a bike rack that is properly assembled and correctly adjusted when it leaves our factory. Please contact our Help Center if you still have any questions after reading this manual. Our customer service staffs are ready to answer questions regarding assembly, performance, operation, service parts or other general services.

Email: support@youngelectricbikes.com

Keep this Owner's Manual in a safe place for future reference. All content in this manual is subject to change as we continually work to refine our products.

This manual contains warnings, cautions, and notes, therefore please carefully read all of this information for your safety. Give special attention to any information that has a warning or caution symbol before or next to it. Also, pay attention to any information preceded by NOTICE as this will be important information that may be related to safety.

Always properly maintain and care for your bike rack so original quality and safety are retained.
