### Technical Specifications

- **Classic Frame**: The updated geometric frame makes riders of all heights very comfortable on this bike. The aluminum hydro-formed structure provides maximum strength while keeping the weight to a minimum.
- **500W Motor**: High quality 500 W rear hub motor to provide the best balance between performance and riding range.
- **Removable Lithium-Ion Battery**: Specially designed 48V 15Ah removable battery, will make your bike easier to handle and more stable. High capacity batteries provide longer rides.
- **Springer Front Suspension Fork**: The springer front suspension fork will provide the comfortable ride you expect. It will also provide the classic look that will make your bike stand out in the crowd.
- **Disc Brake**: 180mm disc brake to provide maximum stopping power when you need to make a quick stop or find you got a little carried away on the speed.
- **HMI Display**: Sealed 3.5" color matrix display provides all the information you need to know when on your ride even in the rain.
- **Front and Rear Lights**: These bikes come standard with front and rear LED lights. These will maximize your safety and allow you to light the way home when you find you have stayed out too late.
- **500W Motor**: High quality 500 W rear hub motor to provide the best balance between performance and riding range.
- **7-Speed Shimano Gear**: Enjoy the bike as a modern bike if find you have depleted all of the battery on that long ride you thought you would never take.
- **Springer Front Suspension Fork**: The springer front suspension fork will provide the comfortable ride you expect. It will also provide the classic look that will make your bike stand out in the crowd.
- **Front and Rear Lights**: These bikes come standard with front and rear LED lights. These will maximize your safety and allow you to light the way home when you find you have stayed out too late.
- **Selle Royal Drifter Saddle**: The super comfortable Cruiser Saddle will be so comfortable you won’t want to get off the bike.
