

# US O THE G

## THE WINNING BLUE COLLECTION 2024

### The Beauty of Italian Design

For many years the GIOS company has been producing racing frames and bicycles for professional use at very high levels. Our "corsa" frames are from a victorious school of riders and for decades they have been used by the top professional teams in all the most important races around the world. GIOS frames are designed by our own technicians and built by craftsmen. Our products are at the forefront of technology and innovation, built with the finest materials available to give exceptional finishing and personalization that assures quality in every detail. Whether in competition or pleasure GIOS can deliver the ride of Champions and the ride of a lifetime.

# THE WINNING BLUE

## COLLECTION 2024

Looking back at 1958, Mr. ALFREDO GIOS, with just 18, started working in the family business, which had been founded ten years before by his father Tolmino, an excellent professional cyclist in the late 30s. His victories brought him to be part of the Italian national team at the Olympic Games of Berlin in 1936. Tolmino GIOS started working in his little bike shop in Turin focused on selling city bikes. Alfredo GIOS looked for a special colour which fitted perfectly with the “stars & stripes”, design of the Brooklyn team jersey. After some tests, he chose the blue colour, because of its

brilliant, electric, eye-catching and surrealist tone. The “BLU GIOS” was born. Nowadays, the GIOS company takes part in every international bike show and its worldwide sales team and customer service is today managed by two branches: GIOS ASIA/PACIFIC based in Osaka, Japan and GIOS INTERNATIONAL, headed by Luca Tolmino GIOS, Alfredo’s son. Today GIOS is part of this project, with the intention of performing again as a true leader in the worldwide professional cycling area.
