WASHING AND TREATING

To guarantee the highest quality standards, Gios undertakes a series of tests on the raw materials used in every one of its garments. Our technicians recommend keeping strictly to the instructions on the maintenance labels. This will ensure that the performance characteristics of the fabrics will last in time.

LABEL

Each garment has a specific maintenance label. We highly recommend following these instructions when maintaining the garment.

Con el fin de garantizar un alto nivel de estándares de calidad, Gios realiza una serie de pruebas sobre las materias primas que componen cada prenda de vestir. Nuestros técnicos sugieren seguir escrupulosamente las instrucciones de la etiqueta de mantenimiento. Al hacerlo así, las características y rendimiento del tejido seguirá siendo más duradero con el tiempo.

ETIQUETA

Cada prenda, va acompañada de una etiqueta específica de mantenimiento, que sugerimos seguir estrictamente cuando se lleve a cabo el mantenimiento de la prenda.

GENERAL RECOMENDATIONS MAINTENANCE

In the case of particularly stubborn stains, put detergent directly into the area concerned, allow to act for a few minutes. If the garment is particularly dirty allow to soak in a basin with water and detergent for a few hours. Wash coloured garments separately, and wash light colours separately from dark colours. It is advisable to turn each garment inside out before washing. Before washing check that all zips are closed. Wash garments and Velcro accessories separately.

RECOMENDACIONES GENERALES DE MANTENIMIENTO

En el caso de manchas especialmente difíciles, ponga un poco de detergente directamente en el área y deje actuar unos minutos. Si la prenda está particularmente sucia, ponga a remojo en un recipiente con agua y detergente, durante unas horas. Lave las prendas de colores claros por separado de colores oscuros. Es aconsejable voltearlo del revés antes de lavarlo. Antes de lavar, cierre las cremalleras. Lavar prendas y accesorios de velcro por separado.
