## Dear Customer

Congratulations and thank you for choosing to invest in a PERGOLUX Sundream Pergola. Feel free to send us a picture and feedback when the pergola is assembled. More information on how this is done can be found at [www.pergolux.co.uk/campaigns](http://www.pergolux.co.uk/campaigns). We will launch more products in the future that will be compatible with your PERGOLUX Sundream Pergola - feel free to follow us on social media to stay updated. To enjoy this product for a long time and for your own and others' safety, please follow the installation instructions. Before you start assembling and using the pergola, we recommend that you first make yourself familiar with the product. Ensure that all the parts listed in the manual are delivered and intact. If you need help with the installation, you can contact us by chat, phone, or e-mail at our website [www.pergolux.co.uk](http://www.pergolux.co.uk)

*We wish you good luck with the assembling process.*

**Note:** Some of the parts might already be pre-assembled.

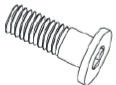

**Note:** We recommend using silicone on all joints where aluminum hits aluminum, preferably on the cuts where the aluminum is not painted.

## Step 1:

Install the base plates (2) to the bottom of the pillars with screws (1) using an electric drill or a hex key.

① x 16	
② x 4	
ⓓ1 x 2	
ⓓ2 x 2	

## Step 2:

Lay the pillars **D1** and **D2** down and insert the beam **B1**. (Be careful not to scratch the pillars and beams when laying them down)

<b>B1</b> x1	
<b>B2</b> x1	

### Step 3:

Install the **(A1)** beam as shown below:

## Step 4:

Screw the top-plates (3) on all corners with the screws (1). Do not tighten the screws fully until the gutters are installed (step 6).

## Step 5:

Install the **A2** beam. Proceed by installing the top-plates **3** on the remaining corners with the screws **1**.

<b>1</b> x6	
<b>3</b> x2	
<b>A2</b> x1	

## Step 6:

Slide 2x(11) into the gutter (E1) for installing accessories.

Hang the gutters (E1) onto the beams - then proceed by screwing them to the beams with screws (12)x6.

(E1) x2	
(11) x4	
(12) x6	

## Step 7:

Slide ⑪x2 into the gutter ①. Screw them onto the beam with screws ⑫.

Tape the corners with tape ⑩.

① x 2	
⑪ x 4	
⑫ x 6	
⑩ x 4	

## Step 8:

Connect the plugs (DC24V to DC24V) and the motor (DC24V to DC24V) to a power socket.

Fasten the motor ⑦ as shown below:

## Step 9:

Install the steering slat (H) and connect it to the motor.

	
3000x 3000	(H) x 1
3000x 4000	(H) x 1

## Step 10:

Install the remaining slats (G) in the order as shown below:

	
3000x 3000	(G) x 22
3000x 4000	(G) x 31

## Step 11:

Install the steering rails (J)x2.

Fasten the steering rails (J) to the slats using bolts (4), plastic spacers (5) and nuts (6).

				
3000x 3000	(4) x 46	(5) x 46	(6) x 46	(J) x 2
3000x 4000	(4) x 64	(5) x 64	(6) x 64	(J) x 2

## Step 12:

You can now attach the pergola to the ground. Suitable fasteners can be purchased from your local building materials dealer.

Be careful not to screw through membranes etc.

### Step 13:

Install the wind protection plates (8) and (9) onto the beams with screws as shown below:

(8) x2		x8	
(9) x2		x8	

# Instructions for operating the remote controller

Press ① to open slats

Press ② to stop slats

Press ③ to close the slats

Press ④ to turn lights on/off

## Learning code:

1. Power the motor
2. Open the back cover of the remote controller and press and hold the code key for more than **5 seconds**
3. The motor will start beeping after 5 seconds.
4. After the motor has started beeping, press the “up” button on the remote controller.

## Deleting code:

1. Power the motor
2. Open the back cover of the remote controller and press and hold the code key for more than **5 seconds** with a needle.
3. The motor will start beeping after 5 seconds
4. After the motor has started beeping, press the “down” button on the remote controller

## Important information

- The PERGOLUX Sundream pergola is made to withstand rough nordic weather conditions. It can therefore be outside all year round. It is recommended to wipe the slats and framework occasionally.
- The roof consists of adjustable slats of aluminum, which shield against sun and rain and can easily be turned to the desired opening. When the slats are closed, the water is drained out to the gutters down through the pillars. Water may enter the pergola under certain conditions.
- In autumn and winter, the slats should be set at a 90-degree angle to prevent leaves and snow from accumulating on the roof. The slats should not be turned when there's frost and snow on the roof, as this could cause the mechanism to break. Snow should be gently removed from the roof continuously if necessary.
- Screens should be rolled up when not in use. This is especially important when there is a lot of wind.

## Closing remarks

Congratulations on the finished Pergola! You have burned some calories and deserve to relax properly under your new Pergola. We hope you were satisfied with the ordering process, delivery, and assembly. Finally, we wish you many happy moments in the future under your new Pergolux Pergola.

Warm and sunny greetings,

Your PERGOLUX team

# PERGOLUX

Et kvalitetsmerke fra Norge

## PERGOLUX SUNDREAM 3×3 / 3×4

### Kjære kunde,

Gratulerer med dette flotte produktet, og tusen takk for at du valgte å investere i en PERGOLUX Pergola. Send oss gjerne et bilde og en tilbakemelding når pergolaen er ferdig montert. Mer informasjon om hvordan dette gjøres og andre kampanjer finner du på [www.pergolux.no/kampanjer](http://www.pergolux.no/kampanjer). Vi lanserer flere produkter i fremtiden som vil være kompatibel med din PERGOLUX Sundream Pergola, så følg gjerne med på hjemmesiden [www.pergolux.no](http://www.pergolux.no) for å holde deg oppdatert. For å nyte dette produktet i lang tid og for din egen og andres sikkerhet, vennligst følg monteringsinstruksjonene. Før du starter monteringsprosessen og tar i bruk pergolaen, anbefaler vi at du først er godt kjent med dette produktet. Forsikre deg om at alle deler som er oppført i listen over deler nedenfor, er levert og er intakte. Om du trenger hjelp med monteringen så er det bare til å kontakte oss på chat, telefon eller e-post.

*Vi ønsker deg lykke til med monteringen.*

**Merk:** Noen deler er allerede forhåndssmontert.

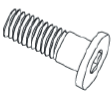

**Merk:** Vi anbefaler å silikoner alle sammenføyninger hvor aluminum treffer aluminum, helst på områder hvor aluminiumet ikke er farget.

## Trinn 1:

Monter bunnplatene (2) til bunnen av søylene med skruer (1) ved hjelp av en elektrisk drill eller en sekskantnøkkel.

① x 16	
② x 4	
ⓓ1 x 2	
ⓓ2 x 2	

## Trinn 2:

Legg søylene (D1) og (D2) ned og sett inn bjelken (B1). (NB: Pass på å ikke lage riper i søylene og bjelken når du legger de ned på bakken)

(B1) x1	
(B2) x1	

### Trinn 3:

Monter bjelken **A1** som vist nedenfor.

## Trinn 4:

Fest topp-platene ③ i alle hjørner med skruer ①. Avvent med å stramme skruene helt til takrennene er montert (trinn 6).

① x6	
③ x2	

## Trinn 5:

Monter bjelken **A2**. Fest deretter topp-platene **3** på de resterende hjørnene med skruer **1**.

<b>1</b> x6	
<b>3</b> x2	
<b>A2</b> x1	

## Trinn 6:

Skyv 2x(11) inn i takrennene (E1) for montasje av tilleggsprodukter.

Heng takrennene (E1) på bjelkene. Fest dem deretter med skruer (12)x6.

(E1) x2	
(11) x4	
(12) x6	

## Trinn 7:

Skyv ①①x2 inn i takrennene ①F1. Fest dem deretter til bjelkene med skruer ①②.

Teip hjørnene med teip ①⑩.

①F1 x2	
①① x4	
①② x6	
①⑩ x4	

## Trinn 8:

Koble pluggene (DC24V til DC24V) og motoren (DC24V til DC24V) til en stikkontakt.

Monter motoren (7) som vist nedenfor:

## Trinn 9:

Monter styringslamellen (H) og fest den til motoren (7).

	
3000x 3000	(H) x 1
3000x 4000	(H) x 1

## Trinn 10:

Monter de resterende lamellene (G) i rekkefølgen vist nedenfor:

	
3000x 3000	(G) x 22
3000x 4000	(G) x 31

## Trinn 11:

Monter styringsskinnene (J)x2.

Fest styringsskinnene (J) til lamellene med skruer (4), skiver (5) og muttere (6).

				
3000x 3000	(4) x 46	(5) x 46	(6) x 46	(J) x 2
3000x 4000	(4) x 64	(5) x 64	(6) x 64	(J) x 2

## Trinn 12:

Du kan nå feste pergolaen til underlaget. Passende festemidler kan kjøpes hos din lokale byggevareforhandler.

Vær forsiktig så du ikke skru gjennom membraner osv.

### Trinn 13:

Monter stormsikringplatene ⑧ og ⑨ på bjelkene med skruer som vist nedenfor:

⑧ x2		x8	
⑨ x2		x8	

# Instrukser for bruk av fjernkontrollen

Trykk ① for å åpne lamellene

Trykk ② for å stoppe lamellene i posisjon

Trykk ③ for å lukke lamellene

Trykk ④ for å skru av/på lysene

## Lær kode:

1. Koble motoren til strøm.
2. Åpne bakdekselet til fjernkontrollen og trykk og hold kodeknappen i mer enn **5 sekunder** med en nål.
3. Motoren vil starte å pipe etter 5 sekunder.
4. Når motoren har startet å pipe, trykk på "opp" knappen på fjernkontrollen.

## Slette kode:

1. Koble motoren til strøm.
2. Åpne bakdekselet til fjernkontrollen og trykk og hold kodeknappen i mer enn **5 sekunder** med en nål.
3. Motoren vil starte å pipe etter 5 sekunder.
4. Når motoren har startet å pipe, trykk på "ned" knappen på fjernkontrollen.

## Viktig informasjon

- PERGOLUX Sundream pergola er laget for norske forhold og tåler å stå ute hele året. Det er lurt å tørke av lameller og rammeverk innimellom for å bevare den best mulig over tid.
- Taket har vridbare lameller av aluminium, som skjermer mot sol og nedbør og enkelt vris til ønsket åpning. Når lamellene er lukket, dreneres vannet ut til rennene i sidene og ned gjennom søylene. Det må påregnes at vann kan komme inn under visse forhold.
- Høst og vinter skal lamellene settes til 90 graders vinkel for å unngå at løv og snø samler seg på taket. Lamellene skal aldri dreies når det er frost og snø, det vil kunne medføre at mekanismen knekker. Snø koster skånsomt bort fra taket fortløpende ved behov.
- Screens skal være rullet opp når de ikke er i bruk. Er det mye vind skal disse også være oppe.

## Avsluttende ord

Gratulerer med ferdig montert Pergola! Nå har du forbrent noen kalorier og fortjener å slappe skikkelig av under din nye Pergola. Vi håper dere var fornøyd med bestillingsprosessen, leveringen og monteringen. Til slutt ønsker vi dere mange fine stunder i tiden fremover under deres nye Pergolux Pergola.

Varme og solfylte hilsner,

*Ditt PERGOLUX-team*

# PERGOLUX

Eine Qualitätsmarke aus Norwegen

**PERGOLUX SUNDREAM 3×3 / 3×4**

## Lieber Kunde

Herzlichen Glückwunsch und vielen Dank, dass Sie sich entschieden haben, in eine PERGOLUX Sundream Pergola zu investieren. Senden Sie uns gerne Bilder und ein Feedback, sobald die Pergola montiert ist. Weitere Informationen dazu finden Sie unter [www.pergolux.de/kampagne](http://www.pergolux.de/kampagne).

Wir werden in Zukunft weitere Produkte auf den Markt bringen, die mit Ihrer PERGOLUX Sundream Pergola kompatibel sind - folgen Sie uns gerne auf unseren sozialen Medien, um immer auf dem neuesten Stand zu bleiben. Um möglichst lange Freude an diesem Produkt zu haben, bitten wir Sie die Montageanleitung genau zu befolgen. Bevor Sie mit der Montage und Nutzung der Pergola beginnen, empfehlen wir Ihnen, sich zunächst mit dem Produkt vertraut zu machen. Stellen Sie sicher, dass alle im Handbuch aufgeführten Einzelteile im Lieferumfang unversehrt und vollständig enthalten sind. Falls Sie Hilfe bei der Installation benötigen, können Sie uns per Chat, Telefon oder E-Mail kontaktieren.

*Wir wünschen Ihnen viel Erfolg bei der Montage.*

**Hinweis:** Einige Teile könnten bereits vormontiert sein.

**Hinweis:** Wir empfehlen Ihnen für alle Verbundstellen, wo Aluminium auf Aluminium trifft, Silikon zu nutzen. Besonders auf Stellen, an denen das Aluminium nicht gefärbt ist

6		x 64	12		x 12
					6

## Schritt 1:

Befestigen Sie zuerst die Grundplatten (2) an der Unterseite der Säulen mit den Schrauben (1) mit Hilfe eines Akkuschraubers oder einem Sechskantschlüssel.

① x 16	
② x 4	
ⓓ1 x 2	
ⓓ2 x 2	

## Schritt 2:

Legen sie die Säulen **D1** und **D2** auf den Boden und Verbinden diese mit dem Träger **B1**. (Achten Sie darauf, dass Sie die Säulen und Balken beim Ablegen nicht zerkratzen)

<b>B1</b>	x1	
<b>B2</b>	x1	

### Schritt 3:

Installieren Sie dann den Träger **A1**.

## Schritt 4:

Schrauben Sie die Abdeckplatten (3) an beiden Ecken mit den Schrauben (1) fest. Ziehen Sie die Schrauben erst vollständig fest, nachdem die Dachrinne eingebaut ist (schritt 6).

① x6	
③ x2	

## Schritt 5:

Montieren Sie den Träger **A2**. Anschließend bringen Sie die Abdeckplatten **3** an den verbleibenden Ecken an.

① x6	
③ x2	
A2 x1	

## Schritt 6:

Schieben Sie 2x(11) in die Regenrinne (E1) um weiteren Zubehör installieren zu können.

Hängen Sie die Dachrinne (E1) an die Träger - dann fahren Sie fort, indem Sie die Rinne mit Schrauben (12)x6 an die Träger befestigen.

(E1) x2	
(11) x4	
(12) x6	

## Schritt 7:

Führen Sie ⑪x2 in die Regenrinne ①F1 ein. Schrauben Sie die Dachrinne mit den Schrauben ⑫ fest.

Befestigen Sie die Ecken mit dem Klebeband ⑩.

①F1 x2	
⑪ x4	
⑫ x6	
⑩ x4	

## Schritt 8:

Verbinden Sie die Stecker (DC24V mit DC24V) und den Motor (DC24V mit DC24V) miteinander.

Befestigen Sie den Motor (7) wie in der Zeichnung ersichtlich.

## Schritt 9:

Installieren Sie die Steuerungslamelle (H) und verbinden diese mit dem Motor.

	
3000x 3000	(H) x 1
3000x 4000	(H) x 1

## Schritt 10:

Setzen Sie die restlichen Lamellen (G), wie in der vorgegebenen Reihenfolge ein.

	
3000x 3000	(G) x 22
3000x 4000	(G) x 31

## Schritt 11:

Befestigen Sie die Lenkschienen (J) x2.

Diese montieren Sie zusammen mit den Schrauben (4), den Kunststoff Abstandshaltern (5) und den Muttern (6).

				
3000x 3000	(4) x 46	(5) x 46	(6) x 46	(J) x 2
3000x 4000	(4) x 64	(5) x 64	(6) x 64	(J) x 2

## Schritt 12:

Sie können nun die Pergola am Boden befestigen. Passendes Befestigungsmaterial erhalten Sie bei Ihrem örtlichen Baustoffhändler/Baumarkt.

Achten Sie darauf, keine Membranen oder ähnliches durch zuschrauben.

### Schritt 13:

Befestigen Sie die Windschutzplatten (8) und (9) an den Trägern.

8 x2		x8	
9 x2		x8	

# Bedienungsanleitung der Fernbedienung

Drücken Sie ① um die Lamellen zu öffnen

Drücken Sie ② damit die Lamellen stehen bleiben

Drücken Sie ③ um die Lamellen zu schließen

Drücken Sie ④ um das Licht ein/aus zu stellen

## Lerncode:

1. Schalten Sie den Motor ein
2. Öffnen Sie die Abdeckung der Fernbedienung und halten die Code-Taste länger als 5 Sekunden mit einer Nadel gedrückt.
3. Der Motor beginnt nach 5 Sekunden zu piepsen.
4. Nachdem der Motor begonnen hat zu piepsen, drücken Sie die "up"-Taste auf der Fernbedienung.

## Code löschen:

1. Schalten Sie den Motor ein
2. Öffnen Sie die Abdeckung der Fernbedienung und halten die Code-Taste länger als 5 Sekunden mit einer Nadel gedrückt.
3. Der Motor beginnt nach 5 Sekunden zu piepsen.
4. Nachdem der Motor begonnen hat zu piepsen, drücken Sie die "down"-Taste auf der Fernbedienung.

## Wichtige Information

- Die PERGOLUX Sundream Pergola ist für raue nordische Wetterbedingungen ausgelegt. Sie kann daher das ganze Jahr über draußen stehen. Wir empfehlen die Lamellen und Rahmen hin und wieder zu reinigen.
- Das Dach besteht aus verstellbaren Aluminium Lamellen, welche gegen Sonne und Regen schützen und ganz einfach in die gewünschte Stellung positioniert werden können. Wenn die Lamellen geschlossen sind, fließt das Wasser über die Lamellen in die Rinne. Wasser kann unter bestimmten Bedingungen auch in die Pergola gelangen.
- Im Herbst und Winter sollten die Lamellen im 90-Grad-Winkel aufgestellt sein, um Laub und Schnee auf dem Dach zu vermeiden. Die Lamellen sollten nicht gedreht werden, wenn Frost und Schnee bereits auf dem Dach liegt, da sonst der Mechanismus kaputt gehen könnte. Der Schnee sollte nach Möglichkeit regelmäßig vorsichtig vom Dach entfernt werden.
- Die Screens sollten eingefahren werden, wenn Sie nicht gebraucht werden. Dies ist besonders wichtig, wenn starker Wind gemeldet ist.

# Schlusswort

Herzlichen Glückwunsch zu Ihrer fertigen Pergola! Sie haben einige Kalorien verbrannt und verdienen es jetzt, sich unter Ihrer neuen Pergola richtig zu entspannen. Wir hoffen, dass Sie mit dem Bestellprozess, der Lieferung und der Montage zufrieden waren. Wir wünschen Ihnen viel Freude und viele glückliche Momente mit Ihrer neuen Pergola.

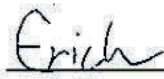

Sonnige Grüße,

Ihr PERGOLUX Team

# PERGOLUX

Ett kvalitetsmärke från Norge

**PERGOLUX SUNDREAM 3×3 / 3×4**

## Kära kund

Grattis till ditt köp och tack att du väljer att investera i en PERGOLUX Sundream Pergola. Skicka gärna bilder och feedback då pergolan är monterad. Mera information om hur du gör detta hittas på [www.pergolux.se/kampanj](http://www.pergolux.se/kampanj). Vi kommer att lansera flera produkter i framtiden som kommer att passa ihop med din PERGOLUX Sundream Pergola - följ oss gärna på sociala medier och vår hemsida [www.pergolux.se](http://www.pergolux.se) för att hålla dig uppdaterad.

För att du ska kunna njuta av denna produkt länge, samt för din egen och andras säkerhet, ber vi dig att följa monteringsinstruktionerna. Före du börjar montera och använda din pergola rekommenderar vi att du bekantar dig med produkten. Kontrollera att alla delar som nämns i manualen är levererade och intakta. Om du behöver hjälp med installationen kan du kontakta oss på chat, telefon eller e-post på vår hemsida [www.pergolux.se](http://www.pergolux.se).

*Vi önskar dig lycka till med monteringen.*

**OBS:** Några delar kan komma förmonterade.

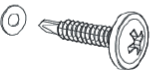

**OBS:** Vi rekommenderar att sätta silikon i alla mötespunkter där aluminium möter aluminium, samt på områden där aluminiumen inte är färgad.

## Steg 1:

Installera bottenplattorna ② till botten av pelarna med skruvar ① genom att använda en elektrisk skruvdragare eller en hexnyckel.

① x 16	
② x 4	
ⓓ1 x 2	
ⓓ2 x 2	

## Steg 2:

Lägg pelarna **D1** och **D2** ner och lägg på bjälken **B1**. (Var försiktig så att du inte skrapar pelarna eller bjälkarna då du lägger dem ner)

<b>B1</b>	x1	
<b>B2</b>	x1	

### Steg 3:

Installera **A1** bjälken så som visas på bilden under:

## Steg 4:

Skruva på toppplattorna ③ i alla hörn med skruvar ①. Spänn inte skruvarna före vattenrännorna är installerade (Steg 6).

① x6	
③ x2	

## Steg 5:

Installera **A2** bjälken. Fortsätt med att installera topplattorna **3** i resterande hörn med skruvar **1**.

<b>1</b> x6	
<b>3</b> x2	
<b>A2</b> x1	

## Steg 6:

Skjut 2x(11) i vattenrännan (E1) för att installera accessoarer.

Häng vattenrännorna (E1) på bjälkarna - fortsätt med att skruva dem fast i bjälkarna med skruvar (12)x6.

(E1) x2	
(11) x4	
(12) x6	

## Steg 7:

Skjut ⑪x2 i vattenrännan ①F1. Skruva dem fast i bjälken med skruvar ⑫.

Tejpa hörnen med tejp ⑩.

①F1 x2	
⑪ x4	
⑫ x6	
⑩ x4	

## Steg 8:

Koppla pluggarna (DC24V till DC24V) och motorn (DC24V till DC24V) till ett vägguttag.

Fäst motorn ⑦ så som visas nedanför:

## Steg 9:

Installera styrningslamellen (H) och koppla den till motorn.

	
3000x 3000	(H) x 1
3000x 4000	(H) x 1

## Steg 10:

Installera de resterande lamellerna (G) i den ordningen som visas nedanför:

	
3000x 3000	(G) x 22
3000x 4000	(G) x 31

## Steg 11:

Installera styrningsskenorna (J)x2.

Spänn fast styrningsskenorna (J) till lamellerna med bultar (4), rundbrickor i plast (5) och muttrar (6).

				
3000x 3000	(4) x 46	(5) x 46	(6) x 46	(J) x 2
3000x 4000	(4) x 64	(5) x 64	(6) x 64	(J) x 2

## Steg 12:

Du kan nu fästa pergolan till underlaget. Passande fästmedel kan köpas från din lokala byggvaruhandel.

Var försiktig, se till att inte skruva genom membran etc.

## Steg 13:

Installera stormsäkringsskivorna ⑧ och ⑨ på bjäklarna med skruvar som visas nedanför:

⑧ x2		x8	
⑨ x2		x8	

# Instruktioner för att använda fjärrkontrollen

Tryck ① för att öppna lamellerna

Tryck ② för att stoppa lamellerna

Tryck ③ för att stänga lamellerna

Tryck ④ för att slå på/stänga av belysningen

## Lära kod:

1. Koppla motorn till ström.
2. Öppna bakluckan på fjärrkontrollen och tryck ner kodnyckeln i mer än **5 sekunder** med en nål.
3. Motorn kommer att börja pipa efter 5 sekunder.
4. Efter att motorn har börjat pipa, tryck "upp" -knappen på fjärrkontrollen.

## Radera kod:

1. Koppla motorn till ström.
2. Öppna bakluckan på fjärrkontrollen och tryck ner kodnyckeln i mer än **5 sekunder** med en nål.
3. Motorn kommer att börja pipa efter 5 sekunder.
4. Efter att motorn har börjat pipa, tryck "ner" -knappen på fjärrkontrollen.

## Viktig information

- PERGOLUX Sundream pergola är utvecklad för att stå emot nordiskt väder. Den kan därför stå ute hela året. Det är rekommenderat att torka av lamellerna, bjälkarna och pelarna ibland.
- Taket består av reglerbara lameller i aluminium, som skyddar mot sol och regn och kan enkelt justeras till önskad öppning. Då lamellerna är stängda dräneras vattnet till vattenrännorna och vidare ut genom pelarna. Under vissa väderförhållanden kan vatten ta sig in i pergolan.
- På hösten och vintern rekommenderas lamellerna att stå i 90 graders vinkel för att undvika att löv och snö samlas på taket. Lamellerna ska inte regleras då det är frost och snö på taket, eftersom detta kan medföra att mekanismen går sönder. Snö kan skonsamt borstas av taket om det behövs.
- Sidoskydden bör rullas upp då de inte används. Detta är speciellt viktigt då det är väldigt stark vind.

## Avslutande ord

Grattis till din färdigt monterade pergola! Du har nu förbränt några kalorier och förtjänar att slappna av under din nya Pergola. Vi hoppas att du var nöjd med beställningsprocessen, leveransen och monteringen. Till slut vill vi önska er många fina stunder i framtiden under er nya Pergolux Pergola.

Varma och solfyllda hälsningar,

Ditt PERGOLUX-team

# PERGOLUX

Et kvalitetsmärke fra Norge

**PERGOLUX SUNDREAM 3×3 / 3×4**

**Kære kunde,**

Tillykke med dette flotte produkt, og tusind tak for at du valgte at investere i en PERGOLUX Pergola. Send os gerne et billede og en tilbagemelding når pergolaen er færdigmonteret. Mere information om hvordan dette gøres og andre kampagner finder du på [www.pergolux.dk/kampagner](http://www.pergolux.dk/kampagner). Vi lancerer flere produkter i fremtiden som vil være kompatible med din PERGOLUX Sundream Pergola, så følg gerne med på hjemmesiden [www.pergolux.dk](http://www.pergolux.dk) for at holde dig opdateret. For at nyde dette produkt i lang tid og for din egen og andres sikkerhed, følg venligst monteringsinstruktionerne. Før du starter monteringen og tager pergolaen i brug, anbefaler vi at du gør dig godt kendt med produktet. Forsikre dig om at alle dele som er opført på indholdslisten nedenfor, er leveret og intakte. Hvis du har brug for hjælp med monteringen, ikke nøl med at kontakte os på chat, telefon eller e-mail.

*Vi ønsker dig held og lykke med monteringen.*

**Bemærk:** Nogen af delene er monteret på forhånd.

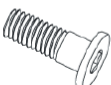

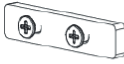

**Bemærk:** Vi anbefaler at bruge silikone i alle sammenføjninger hvor aluminum rammer aluminum, helst i områder hvor aluminiumet ikke er farvet.

					6

## Trin 1:

Monter bundpladerne (2) til bunden af søjlerne med skruer (1) ved hjælp af en elektrisk skruemaskine eller en sekskantnøgle.

① x 16	
② x 4	
ⓓ1 x 2	
ⓓ2 x 2	

## Trin 2:

Læg søjlerne (D1) og (D2) ned og sæt bjælken ind (B1). (NB: Pas på ikke at lave ridser på søjlerne og bjælken når du lægger dem ned på jorden)

(B1) x1	
(B2) x1	

### Trin 3:

Monter bjælken **A1** som vist nedenfor.

## Trin 4:

Fastgør topdæksler (3) i alle hjørnerne med skruer (1). Afvent med at stramme skruerne helt til tagrenderne er monteret (trin 6).

① x6	
③ x2	

## Trin 5:

Monter bjælken **A2**. Fastgør derefter topdækslerne **3** på de resterende hjørner med skruer **1**.

<b>1</b> x6	
<b>3</b> x2	
<b>A2</b> x1	

## Trin 6:

Skub 2x(11) ind i tagrenderne (E1) for montering af tillægsprodukter.

Hæng tagrendener (E1) på bjælkerne. Fastgør dem derefter med skruer (12)x6.

(E1) x2	
(11) x4	
(12) x6	

## Trin 7:

Skub ⑪x2 ind i tagrenderne ①F1. Fastgør dem derefter til bjælkerne med skruer ⑫.

Tape hjørnerne med tape⑩.

①F1 x2	
⑪ x4	
⑫ x6	
⑩ x4	

## Trin 8:

Tilslut stikkene (DC24V til DC24V) og motoren (DC24V til DC24V) til en stikkontakt.

Monter motoren (7) som vist nedenfor:

## Trin 9:

Monter styringslamellen (H) og fastgør den til motoren (7).

	
3000x 3000	(H) x 1
3000x 4000	(H) x 1

## Trin 10:

Monter de resterende lameller (G) i rækkefølgen vist nedenfor:

	
3000x3000	(G) x 22
3000x4000	(G) x 31

## Trin 11:

Monter styringsskinnen (J)x2.

Fastgør styringsskinnerne (J) til lamellerne med skruer (4), skiver (5) og mutter (6).

				
3000x 3000	(4) x 46	(5) x 46	(6) x 46	(J) x 2
3000x 4000	(4) x 64	(5) x 64	(6) x 64	(J) x 2

## Trin 12:

Du kan nu fastgøre pergolaen til underlaget. Passende fastgørelsesmaterialer kan købes hos dit lokale byggemarked.

Vær forsigtig så du ikke skruer gennem membraner osv.

### Trin 13:

Monter stormsikringspladerne (8) og (9) på bjælkerne med skruer som vist nedenfor:

(8) x2		x8	
(9) x2		x8	

# Instrukser for brug af fjernbetjeningen

Tryk ① for at åbne lamellerne

Tryk ② for at stoppe lamellerne i position

Tryk ③ for at lukke lamellerne

Tryk ④ for at skrue lysene af/på

## Lær kode:

1. Tilslut motoren til strøm.
2. Åbn bagdækslet til fjernbetjeningen, tryk og hold kodeknappen i mere end **5 sekunder** med en nål.
3. Motoren vil starte med at pibe efter 5 sekunder.
4. Når motoren er begyndt at pibe, tryk på "op" knappen på fjernbetjeningen.

## Slette kode:

1. Tilslut motoren til strøm.
2. Åbn bagdækslet til fjernbetjeningen, tryk og hold kodeknappen i mere end **5 sekunder** med en nål.
3. Motoren vil starte med at pibe efter 5 sekunder.
4. Når motoren er begyndt at pibe, tryk på "ned" knappen på fjernbetjeningen.

## Viktig informasjon

- PERGOLUX Sundream pergola er lavet til skandinaviske forhold og tåler at stå ude hele året. Det er smart at tørre lamellerne og rammeværket af en gang imellem for at bevare dem bedst mulig over tid.
- Taget har roterbare lameller af aluminium, som skærmer mod sol og nedbør og roteres enkelt til ønsket stilling. Når lamellerne er lukket, dræneres vandet ud til renderne i siderne og ned gennem søjlerne. Det er forventelig at vand kan komme ind under visse forhold.
- Efterår og vinter skal lamellerne sættes i 90 graders vinkel for at undgå at blade og sne samles på taget. Lamellerne skal aldrig roteres når der er frost og sne, da det vil kunne medføre at mekanismen knækker. Sne fjernes skånsomt fra taget løbende ved behov.
- Screens skal være rullet op når de ikke er i brug. Er der meget vind skal disse også være oppe.

## Afsluttende ord

Tillykke med færdigmonteret Pergola! Nu har du forbrændt nogle kalorier og fortjener at slappe godt af under din nye Pergola. Vi håber du er tilfreds med bestillingsprocessen, leveringen og monteringen. Til sidst ønsker vi dig mange fantastiske øjeblikke i tiden fremover under din nye Pergolux Pergola.

Varme og solfyldte hilsener,

*Dit PERGOLUX-team*

# PERGOLUX

Una marca de calidad de Noruega

**PERGOLUX SUNDREAM 3×3 / 3×4**

**Estimado(a) cliente,**

Felicitaciones por nueva pérgola y muchas gracias por elegir invertir en una pérgola Pergolux. Agradeceremos mucho que nos comparta fotografías y comentarios sobre su experiencia de instalación, una vez que haya terminado de montar su pérgola. Para disfrutar el producto por muchos años, y para su propia seguridad y la de otras personas, le rogamos que siga cuidadosamente estas instrucciones. Antes de comenzar el proceso de instalación, le recomendamos que se familiarice con el contenido de las cajas y corrobore de que todas las piezas del listado más abajo estén presentes e intactas. Si nota que falta alguna pieza o algún componente está dañado, por favor no instale la pérgola aún, sino tome contacto con nosotros primero. Si requiere ayuda para instalar su pérgola o le surgen dudas durante el proceso, no dude en contactarnos de inmediato.

*Le deseamos éxito con la instalación de su nueva pérgola Pergolux.*

**Nota:** Algunas piezas podrían venir pre-ensambladas.

**Nota:** Recomendamos utilizar silicona transparente en las uniones de las piezas de aluminio, especialmente en los cortes donde el aluminio no está pintado.

## Instrucciones de Seguridad:

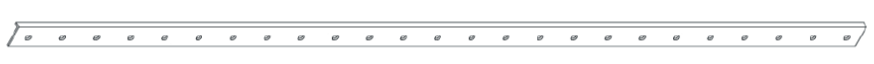

Por su seguridad y la de los demás, es muy importante seguir las siguientes instrucciones:

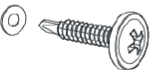

- Contáctenos si no entiende este manual o parte de él.
- No instale la pérgola si faltan partes o hay partes dañadas. Si fuere el caso, contáctenos a [contacto@pergolux.cl](mailto:contacto@pergolux.cl)
- Mantenga a niños y mascotas lejos del lugar de trabajo durante la instalación y ajustes.
- No instale la pérgola si las condiciones climáticas no lo permiten, por ejemplo, si hay viento fuerte, lluvia, nieve o hielo.
- Asegúrese de tener las manos limpias durante la instalación para evitar dejar manchas de grasa en el producto.
- No debe trepar ni colgar objetos pesados en la pérgola.
- La láminas de plástico transparente adheridas sobre las piezas de aluminio son para proteger la pintura. Retire solo una parte de estas láminas justo antes de montar las distintas partes. Termine de retirar las láminas completamente solo cuando haya terminado de armar la pérgola.
- La pérgola Pergolux es un producto robusto apta para los climas de Chile. No obstante, puede sufrir daños en eventos climáticos catastróficos o si es expuesta directamente a fuentes de calor elevado como calefactores o parrillas que estén muy cerca de la pérgola
- **Siempre mantenga las lamas del techo abiertas** frente a condiciones de mucho viento, para evitar daños en la pérgola y en las personas.

					7

## Paso 1:

Instale las bases (2) a la parte inferior de los pilares con los pernos (1) con un atornillador eléctrico o una llave ALLEN.

① x 16	
② x 4	
ⓓ1 x 2	
ⓓ2 x 2	

## Paso 2:

Ponga los pilares **D1** y **D2** cuidadosamente en el suelo e inserte la viga **B1**. (Trabaje sobre una superficie limpia y lisa para que las piezas no se rayen)

<b>B1</b>	x1	
<b>B2</b>	x1	

### Paso 3:

Instale la viga **A1** como se muestra en la figura:

## Paso 4:

Instale las placas superiores ③ con forma de L en las esquinas, fijándola con los pernos ①. No apriete totalmente los pernos sino hasta haber instalado las canaletas (Paso 6).

① x6	
③ x2	

## Paso 5:

Instale la viga **A2**. Instale las placas superiores **3** con forma de L en las esquinas, fijándola con los pernos **1**. No apriete totalmente los pernos sino hasta haber instalado las canaletas (Paso 6).

<b>1</b> x6	
<b>3</b> x2	
<b>A2</b> x1	

## Paso 6:

Inserte dos soportes ⑪ en cada canaleta ① deslizándolos por la ranura inferior de éstas. Estos soportes le permitirán fijar accesorios en el futuro.

Cuelgue las canaletas ① en las vigas. Luego fije cada una de ellas con 3 tornillos ⑫.

① x2	
⑪ x4	
⑫ x6	

## Paso 7:

Repita el paso anterior con las canaletas (F1).

Ponga la cinta adhesiva (10) en las uniones de las canaletas.

(F1) x2	
(11) x4	
(12) x6	
(10) x4	

## Paso 8:

Conecte los plug (DC24V a DC24V) y el motor (DC24V a DC24V) a una toma de corriente.

Instale el motor ⑦ como se muestr en la figura:

## Paso 9:

Instale la lama guía (H) y fíjela al motor (7).

	
3000x 3000	(H) x 1
3000x 4000	(H) x 1

## Paso 10:

Instale el resto de las lamas (G) en el orden como se muestra en la figura:

	
3000x 3000	(G) x 22
3000x 4000	(G) x 31

## Paso 11:

Instale los rieles (J) en cada extremos de las lamas.

Fije los rieles (J) a las lamas con pernos (4), golillas (5) y tuercas (6).

				
3000x 3000	(4) x 46	(5) x 46	(6) x 46	(J) x 2
3000x 4000	(4) x 64	(5) x 64	(6) x 64	(J) x 2

## Paso 12:

Fije los pilares al suelo asegurándose primero de que los 6 pilares estén a plomo. Utilice una broca y pernos de anclaje adecuados según el tipo de suelo que tenga (cemento, cerámico, madera, piedra, etc).

### Paso 13:

Instale las placas anti-tormenta ⑧ y ⑨ sobre las vigas, fijándolas con tornillos, como se muestra en la figura:

⑧ x2		x8	
⑨ x2		x8	

# Instrucciones de uso del control remoto

Presione ① para abrir las lamas

Presione ② para dejar las lamas en posición

Presione ③ para cerrar las lamas

Presione ④ para encender/apagar las luces

## Configurar código:

1. Conecte el motor a una toma de corriente.
2. Abra la tapa trasera del control remoto y mantenga presionado el botón con una aguja o similar por más de **5 segundos**.
3. Tras 5 segundos el motor comenzará a emitir un pitido.
4. Cuando escuche el pitido, presione el botón ① (flecha hacia arriba).

## Borrar código:

1. Conecte el motor a una toma de corriente.
2. Abra la tapa trasera del control remoto y mantenga presionado el botón con una aguja o similar por más de **5 segundos**.
3. Tras 5 segundos el motor comenzará a emitir un pitido.
4. Cuando escuche el pitido, presione el botón ③ (flecha hacia abajo).

## Información importante

- La pérgola PERGOLUX está fabricada para condiciones climáticas exigentes y puede soportar estar a la intemperie todo el año. Es recomendable limpiar las lamas y la estructura en general de vez en cuando para una mejor conservación a lo largo del tiempo.
- El techo tiene lamas giratorias de aluminio, que protegen contra el sol y la lluvia y que se giran fácilmente hasta el punto de apertura deseado. Cuando las lamas están cerradas, el agua drena hacia las canaletas laterales y hacia abajo a través de los pilares. En condiciones de lluvia y viento fuerte, es de esperar que pueda filtrarse algo de agua por entre las lamas.
- En otoño e invierno, las lamas deben colocarse en un ángulo de 90 grados para evitar que se acumulen hojas y nieve en el techo. Nunca se deben girar las lamas si están cubiertas de nieve o están congeladas, ya que esto podría provocar la rotura del mecanismo. Retire la nieve del techo suavemente de forma continua si es necesario.
- Si han instalado suncreens en su pérgola, éstos deben enrollarse cuando no estén en uso.

## Comentarios finales del equipo de PERGOLUX

¡Felicitaciones por haber armado su nueva pérgola!  
Ya quemó bastantes calorías en el proceso y se merece un buen descanso bajo su nueva PERGOLUX. Esperamos que esté satisfecho(a) con el proceso de compra, envío y montaje. Queremos mejorar continuamente y estamos muy interesados en su feedback.

Le deseamos muchos buenos momentos en su terraza o espacio exterior.

El equipo de Pergolux,
