

# ERTÉ MAE

Download and print this page on A4 paper ensuring the scaling is set to 100%. Check your print out is accurate by comparing the measurements below with a ruler or a standard issue credit/debit card.

## Method A

Cut around the Ring Sizer Template. Then carefully cut a slit where indicated between the two arrows on the left of the Ring Sizer Template. A stanley knife is ideal for this, or alternatively it can be helpful to fold the Ring Sizer Template lengthways to make the slit. Push the narrow end through the slot to form a loop and adjust the Ring Sizer so that it sits comfortably around your finger. Do not over tighten. Read the size from the scale. If your size falls between two letters please let us know which two.

\*A handy tip is to place sticky tape over the template before cutting it out to give it more strength

## Method B

Using a ring that fits the finger you wish to size, place the ring on the below circles until you find one where the black circle touches the inside of your ring all the way around.
