

## BENCHMARK STYLE FRONT FENDERS

Traditional bagger style without the factory rivets. Benchmark Style Front Fenders offer rivetless smooth sides, an extended (1-1/2") rear tail, and a lower profile than your stock fender. The 14 gauge stamped steel is rigid enough to act as a fork brace. Benchmark fenders are 6-1/2" wide with fitments available for 16, 17", 18", 19" or 21" wheels. Fit up to 140 series tire.

All of Klock Werks Front Fenders are stamped from 14 gauge steel using precision, deep-draw stamping technology that ensures a consistently smooth and flawless finish, minimizing bodywork. Laser cut using 5-axis laser technology to ensure accurate fitment for direct bolt-on installation. Klock Werks then goes the extra mile to add e-coat, a process to prevent rust and corrosion. Painters love Klock Werks Fenders and you will too!

Installation requires use of front fender mounting blocks on some models. Some fitments are available as FIT KITS.

**FITMENT:** 2014+ FLH models, 83-13 FLH models, and 84+ FLST models.

**PRICES STARTING AT \$279.95**
