

welcome to  
i  mounts®

HERE ARE A FEW THINGS WE THINK YOU'LL FIND **IMPORTANT.**

# INCLUDED COMPONENTS

THIS IS WHERE THE MAGIC HAPPENS!

## iOdisc™

A stainless steel disk that attaches to the back of your phone, tablet, GPS or other approved device.

Note: The iOdisc™ is NOT a magnet!

**KEEP EXTRA ON HAND!**

## iOcore™

The iOcore™ is a magnetic cylinder that connects your devices to iOmounts® products.

**AVAILABLE IN 6 COLORS  
FOR A CUSTOMIZED LOOK!!**

## ...connect to more!

Once the iOdisc™ is adhered to your device, connect to stands, model-specific mounts, car mounts, wall mounts and more!

**FIND IT ALL AT  
GETKLOCKED.COM**

## INSTALLATION

### ADHERE

Clean the surface of your device case thoroughly. Center the iOdisc™ on your case then apply with firm pressure to the case while on a flat surface and adhere.

**Allow adhesive to set at least 24 hours before attaching to iOcore. For best results, let set 72 hours before first use.**

### INSTALL

Thread the pre-assembled iOsphere and stem on the base. Tighten firmly.

### ATTACH

Once the iOdisc™ has cured for 24 hours, your device is ready to be attached to *any* iOmount®!

Watch this video and learn how to adhere the iOdisc correctly to guarantee a wonderful experience.

**GETKLOCKED.COM/HOW-TO**

## FYI

While a very strong 3M VHB adhesive is used, the iOdisc™ will not stick to all surfaces and materials. This includes rubber, silicon, soft-touch and other soft and/or textured surfaces.

*For best results, Klock Werks recommends the use of a smooth plastic, non-silicone case.*

Each iOdisc™ utilizes permanent adhesive and is very difficult to remove once applied. *Klock Werks is not responsible for any damages caused by the removal of the iOdisc™.*
