

“No other malt gives the same exceptional flavour to our beers that Golden Promise provides, and that’s why we’ve used it for over 40 years.”

FINEST PALE ALE GOLDEN PROMISETM

Golden Promise is a beautiful heritage variety chosen for its taste, diversity and processability. Loves hops!

- Beer Styles:** Session IPAs, Highly Hopped Keg Beers, Cask Ales, SMASH Beers, Premium All-Rounder
- Malt Flavour:** Light Malty
- Usage:** Up to 100%

When you need a high performing well balanced malt to complement your big hops, look no further than Golden Promise. It gives beautiful mouthfeel to bring balance to beers with even the gutsiest hops. And when you drop the gravity for a session beer, you won’t lose out on body.

This gives the biggest base of any malt without adding colour, resulting in exceptional beers. Just ask any of our award winning customers who use Golden Promise – the results speak for themselves.

I love Simpsons Malt! Their high quality standards and solid portfolio make them a great option when I’m designing recipes. I regularly stock their Crystal malts and Roasted malts, but my favourite might just be their Golden Promise. When used as the featured malt, It finishes clean and provides a malty sweetness that is a perfect backdrop for many beer styles. It’s especially good for providing balance in hop forward beers.
