- Tapping "Geo Fence" button to enter Fence page.

Slide to change the radius

Swipe to move the fence

Edit Fence Name

Save Fence

Troubleshooting

Q: After scan the QR, it prompts that the IMEI does not exist or already bind.

A: Part of the IMEI will missed when importing the system or the engineer forget to unbind and restore the factory settings during random inspections. Please provide the IMEI number to contact us to import the IMEI for you or reset the factory settings remotely, which will not affect normal use.

Q: Cannot find OB22 on the map.

A: There is no positioning point of the device on the map because the device has not uploaded any positioning data.

If OB22 is online, please bring the device to an open sky to get GPS signals.

If OB22 is offline, please check SIM card data balance first, and contact us.

Warranty & Support

This warranty covers any manufacturing defects to the device or accessories encountered by normal use. This warranty does NOT cover damages resulting from improper use of the device (including the use of incompatible accessories such as chargers, storage devices, etc.), unauthorized modifications to the device, negligence, water damage, or from any environmental or natural disasters, or loss or theft.

*Please contact us before sending your device back so that we can help you clear your data, unbundle your device and check if the auto-renewal has been canceled to avoid any unnecessary hassle for you.

Since the printed manual is relatively small, if you need an electronic manual or any questions about the product, please feel free to contact us. Queries are typically answered within 24 hours.
