

# FABRIC SIGN GUYS

## Feather Flag Assembly Guide

**Step 1:** Unpack all the contents of the carry bag.

**Step 2:** Take the thinnest pole and begin to feed it through the sleeve of your Feather Flag, starting from the bottom.

**Step 3:** Once you have fully inserted the thinnest pole, connect the middle poles and continue feeding the poles through the sleeve. Repeat this process for the remaining pole.

**Step 4:** Loosen the butterfly screw allowing you to move the locking mechanism closer to the bottom of your flag. Then take the fabric loop and attach to the lock hook.

**Step 5:** Pull the flag down to the right tension and twist the butterfly screw to secure the lock in place.
