**ABOUT**

**LACUNA CLIMBING**

la·cu·na | ˈlə-kū-nə, ˈlē-kyü

*Lacuna Climbing* was created out of our many climbing trips to China where we discovered there were few options to obtain locally made climbing holds. With a strong sense of adventure and a good-old American "can-do" attitude, we moved to China and opened a climbing hold factory.

Teaming up with world-class shapers Andy Nelson and Kegan Minock we developed a full range of "fundamental" shapes dedicated to serving the Asia gym market. We hope you like the shapes and plastic we have developed and look forward to bringing more shapes in the future. Thank you for your support.

*Lacuna Climbing* was founded in Los Angeles by three long-time friends (Rob Ross, Ray Wu, Kelly Soohoo).

Our logo is inspired by Moon Hill in Yangshou, Guilin, China, and the waves of Southern California.

---

**SHAPING TEAM**

**ANDY NELSON**

Andy is a hold shaper based out of Minnesota, USA. In his 10 year shaping career, Andy has released over 2000 shapes. Besides shaping, Andy has been instrumental behind the scenes with the launch of Lacuna. Using his experience as owner of Method Grips to help get the company off to a strong start.

---

**KEGAN MINOCK**

Kegan has been climbing for 19 years, a nationally certified Routesetter and has been shaping climbing holds for 8 years. He draws inspiration from the challenge of fusing the intricacies of outdoor climbing with the comfort and accessibility that climbing gyms offer. In his free time, he enjoys spending time with his wife and two boys.

Black 18-00
White 12-01
Light Grey 18-12

MATERIAL

Polyurethane
All Lacuna holds are made out of polyurethane resin. PU compared to polyester resin is more resistant to breakage, comparably lighter, and able to achieve brighter colors.

Polyester
Lacuna holds up to size XL are also available in polyester and feature a safety spring to safeguard the holds from bursting apart.

HOLLOWBACKS

Lacuna holds sized medium on up have hollow-backs to reduce weight and material. Lighter holds allow setters move more holds in less time and effort. It also allows us to reduce our pricing so you can get more hold for less.

ATTACHMENT SYSTEM

The majority of Lacuna holds fit an M10 cap-head bolt and come with at least one wood screw hole for a secure double attachment. We advise using the extra wood screw hole to prevent the hold from spinning. Some Lacuna holds come with a dual-head washer to support M10 screws with both martini and cap-heads.

HOLD SIZE REFERENCE

LACUNA 2022 SUMMER
crescent jugs

Ranging from open-hand to roof jugs, this eye-catching line is fun from any angle.

Sets: 8
Holds: 26
crescent pinches

Ref: LH181

Large
Shapes: 4
Size: LARGE
Type: SCREW ON
Ref: LH182

XL
Shapes: 4
Size: XL
Type: SCREW ON
Ref: LH183

LACUNA 2022 SUMMER
In the summer of 2019, I traveled to China to meet the Lacuna team and do a little shaping. Having never been outside North America, the rural village came as quite a culture shock. I was absolutely blown away by the work ethic of the Lacuna team. Every person was genuinely excited to be making climbing holds. Their passion was infectious. So infectious that I found myself grinding out 12+ hour days in their shaping studio. This photo was taken in the middle of that grind. I’ve never shaped so many holds in such a short time. My fingers were raw for days afterward. My hope is that the results of these efforts speak for themselves and you love these shapes as much as I do.
