HEAVY BODY ACRYLIC

# HEAVY BODY

- ✓ High viscosity
- ✓ Highly pigmented
- ✓ Holds knife marks & brush strokes
- ✓ Satin finish

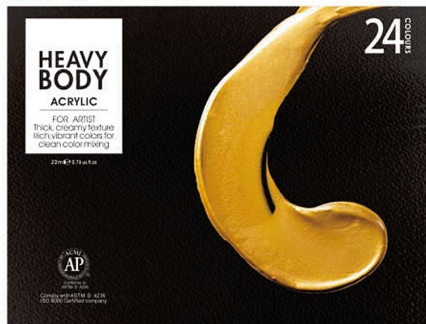

This is high viscosity, pigment-rich professional acrylic color, ideal for impasto and texture.

With a high concentration of lightfast artist-quality pigment and a satin finish, Heavy Body Acrylic gives you rich, permanent color, with crisp brush strokes and knife marks.

12x22ml HEAVY BODY set

24x22ml HEAVY BODY set

## OUR FORMULA

At the forefront of acrylic innovation, Heavy Body represents the latest in acrylic resin technology. The low-odor acrylic resin base gives you increased open time and colors of great clarity and vibrancy, with minimal wet-to-dry shift. The paint film is highly flexible, durable, non-yellowing, UV-resistant and water-resistant when dry.

It's also safe to use. Hold the Approved Safety (AP) seal\*. This means they are certified to contain no materials in sufficient quantities to be toxic or harmful to humans, or to cause health problems.

ARTIST ACRYLIC COLOUR

# ARTIST ACRYLIC COLOUR

Creamy texture  
Rich, vibrant colors for  
clean color mixing

### CREAMY TEXTURE

Satisfyingly rich and smooth. This is our highest viscosity acrylic paint. Good surface drag gives excellent handling and blending characteristics, with increased open-working time. Never too slippery, or too sticky. Artist Acrylic delivers intense color in the ideal consistency, for a range of techniques.

ACRYL COUACHE

# ACRYL + GOUACHE COLOURS SET

Acryl Gouache Perfect for fine art, design and illustration. It is the opaque acrylic color, a new paint with combining traditional gouache and acrylic to create unexceptionable opaque / semi-opaque acrylic, high pigment, non-crackle, no longer dissolved in water once dried and fixed, although it can be diluted with water, the screen covers underlying color and the surface becomes matting.

12x22ml Acryl Gouache set

24x22ml Acryl Gouache set

24x22ml Acryl Gouache set	0	8	370*339*160MM	8.6kgs

HOW IT PERFORMS

We've reimagined the traditional gouache, using MAGI-WAP innovation to bring you a new paint with the extra benefits of an acrylic. Intense color, flat, matte effects, smooth, permanent with no brush marks and no need to dilute.

EXTREME COLOR

The innovative formula has a super-concentration of pure, ultra-fine pigments dispersed evenly in a flexible acrylic vehicle. It contains the highest intensity of pigment in any of our paints.

CLEAR SATIN VARNISH

Clear Satin Varnish is used to protect the painting from dust, UV rays and yellowing. Adds shine to bring out the vibrancy of the colours.

- Water based, non-toxic.
- Satin clear finish.
- Waterproof
- Suitable for indoor and outdoor use.

Directions:

- Using a criss cross action, apply thin layers with a soft brush suitable to the area size.
- Allow to dry an hour minimum before applying additional coats. Drying time will vary according to climate conditions.
- Do not use on any oil based products.
- Clean up with cool soapy water.
- Always test on sample area before applying to entire project.

ACRYLIC MEDIUM

GLOSS MEDIUM & VARNISH

1. Enhances depth of color and increases transparency, gloss and flow.
2. May be used as a final, non-removable varnish for acrylic paintings.
3. Mix with any acrylic color or apply over finished painting.
4. Can thin by adding up to 25% water.
5. Use for glazing, as a fixative, collage adhesive, varnish, binder, or transfer medium.
6. Do not mix with oils.

SLOW-DRYING BLENDING MEDIUM

1. Slows drying, thins color, improves blending and transparency.
2. Large quantities may temporarily lighten color until dry.
3. Dries clear and glossy.
4. Mix with any acrylic color, do not mix with oils.
5. Allow three days before varnishing.
6. Contains Methyloisothiazolinone and Benzothiazolinone. May produce an allergic reaction.

MATTE MEDIUM

1. Creates a matte non-reflective finish.
2. Opaque when wet, dries translucent and matte.
3. Increases translucency, adhesion and paint flow.
4. Mix with any acrylic color or Liquitex mediums.
5. Can thin by adding up to 25% water.
6. Do not use as a final varnish or glazing medium.
7. Do not mix with oils.

ULTRA MATTE MEDIUM

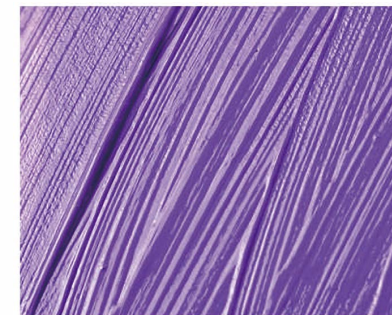

1. Creates an ultra matte and opaque, non-reflective finish.
2. Extends paint volume.
3. Slows drying time and enhances blending.
4. Permanent, non-yellowing, flexible and water resistant when dry.
5. Mix with any acrylic color.
6. Can thin by adding up to 25% water.
7. Do not mix with oils.
8. Increases the volume of paint, while maintaining the opacity of colour it is mixed into or for under painting.
9. May act as a weak tinting white depending on the amount used.

GLOSS VARNISH

1. Permanent varnish to protect surfaces.
2. Establishes an even gloss finish.
3. Helps to protect against UV damage.
4. Translucent when wet, dries clear.
5. Permanent, non-yellowing, flexible and water resistant when dry.
6. Gently stir before using.
7. Do not thin with water.
8. Apply at least 2 thin coats, allow minimum 3 hours drying between coats.
9. Continuous over brushing or vigorous brushing may result in fogging after drying.
10. Do not use with oil paint.
11. For interior and exterior use.

MATT VARNISH

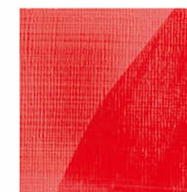

1. Permanent varnish to protect surfaces.
2. Establishes an even matt finish that decreases glare.
3. Helps to protect against UV damage.
4. Translucent when wet, dries clear.
5. Permanent, non-yellowing, flexible and water resistant when dry.
6. Gently stir before using.
7. Do not thin with water.
8. Apply at least 2 thin coats, allow minimum 3 hours drying between coats.
9. Continuous over brushing or vigorous brushing may result in fogging after drying.
10. Do not mix with oils.
11. For interior and exterior use.

## MODELING PASTE

Smooth, water-based acrylic Modeling Paste is a kind of opaque products which aims to create textural surfaces, it can be used either wet or dry.

Formulated with 100% acrylic polymer emulsions, the product has high flexibility and durability, the drying time greatly depends upon film thickness.

It can be used on canvas, wood, paper, cardboard, glass, metal, stone and so on, weatherproof.

molding paste

## ACRYLIC MEDIUM

### SUPER HEAVY GESSO

1. A heavy body, impasto gesso.
2. Seals, stiffens painting surfaces.
3. Holds shape during drying.
4. Opaque, matte, white, permanent, non-yellowing, flexible and water resistant when dry.
5. For acrylic, oil, pastels and other paint media.
6. Apply to raw canvas, hardboard, paper, wood and other non-oily porous surfaces.
7. Sand hard, shiny surfaces before applying.
8. Thin only with another gesso.
9. Allow 24 hours minimum drying before use. Do not sand.
10. Do not mix with oils.
11. Always apply a first coat of fluid gesso to optimize the adhesion.
12. Can tint with acrylic color.

### GESSO

1. Seals, stiffens painting surfaces.
2. Permanent, non-yellowing, flexible and water resistant when dry.
3. For acrylic, oil, pastels and other paint media.
4. Apply to raw canvas, hardboard, paper, wood and other non-oily porous surfaces.
5. Sand hard, shiny surfaces before applying.
6. Allow 24 hours minimum drying before use.
7. Do not mix with oils.

### BLACK COLORED GESSO

1. Seals, stiffens and painting surfaces.
2. Permanent, non-yellowing, flexible and water resistant when dry.
3. For acrylic, oil, pastels and other paint media.
4. Apply to raw canvas, hardboard, paper, wood and other non-oily porous surfaces.
5. Sand hard, shiny surfaces before applying.
6. Allow 24 hours minimum drying before use.
7. Do not mix with oils.
8. Can tint with acrylic color.

### NEUTRAL GRAY COLORED GESSO

1. Seals, stiffens painting surfaces.
2. Permanent, non-yellowing, flexible and water resistant when dry.
3. For acrylic, oil, pastels and other paint media.
4. Apply to raw canvas, hardboard, paper, wood and other non-oily porous surfaces.
5. Sand hard, shiny surfaces before applying.
6. Allow 24 hours minimum drying before use.
7. Do not mix with oils.
8. Can tint with acrylic color.

### CLEAR GESSO

1. Seals, stiffens painting surfaces.
2. Permanent, non-yellowing, flexible and water resistant when dry.
3. For acrylic, oil, pastels and other paint media.
4. Apply to raw canvas, hardboard, paper, wood and other non-oily porous surfaces.
5. Allow 24 hours minimum drying before use.

### GLOSS GEL

1. Soft gel consistency.
2. Retains brush strokes.
3. Extends paint volume while increasing transparency.
4. Increasing depth of color. Slow drying time and enhances blending.
5. Mix with any acrylic color.
6. Can thin by adding up to 25% water.
7. Do not mix with oils.
9. Excellent binder for pigments and additives such as sand, sawdust, stone, etc.
10. Collage adhesive.

### GLOSS SUPER HEAVY GEL

1. Extra heavy body consistency.
2. Produces a brilliant gloss impasto color with oil-like drag.
3. Retains high-peaks and crisp brush and knife strokes.
4. Extends paint volume while increasing transparency.
5. Slows drying time and enhances blending.
6. Mix with any acrylic color.
7. Can thin with by adding up to 25% water.
8. Do not mix with oils.
9. For structural applications.
10. Ideal for thick glazes and brilliant gloss impasto effects.
11. Excellent binder for pigments and additives such as sand, sawdust, stone etc.

### MATTE GEL

1. Heavy body, translucent gel.
2. Creates a matte, non-reflective finish.
3. Retains brush strokes.
4. Opaque when wet, dries translucent and matte.
5. Extends paint volume.
6. Slows drying time and enhances blending.
7. Permanent, non-yellowing, flexible and water resistant when dry.
8. Mix with any acrylic color.
9. Can thin by adding up to 25% water.
10. Do not mix with oils.
11. Excellent glue for collage.
12. Use as a transparent ground for acrylic paintings.

### MATTE SUPER HEAVY GEL

1. Extra heavy body consistency.
2. Thickens acrylic color.
3. Retains high-peaks and crisp brush and knife strokes.
4. Reduce color sheen.
5. Extends paint volume while increasing transparency.
6. Slows drying time and enhances blending.
7. Permanent, non-yellowing, flexible and water resistant when dry.
8. Mix thoroughly with any acrylic color.
9. Can thin by adding up to 25% water.
10. Do not mix with oils.
11. For structural applications.
12. Excellent binder for pigments and additives such as sand, sawdust, stone, etc.
13. Collage adhesive.

ACRYLIC MEDIUM

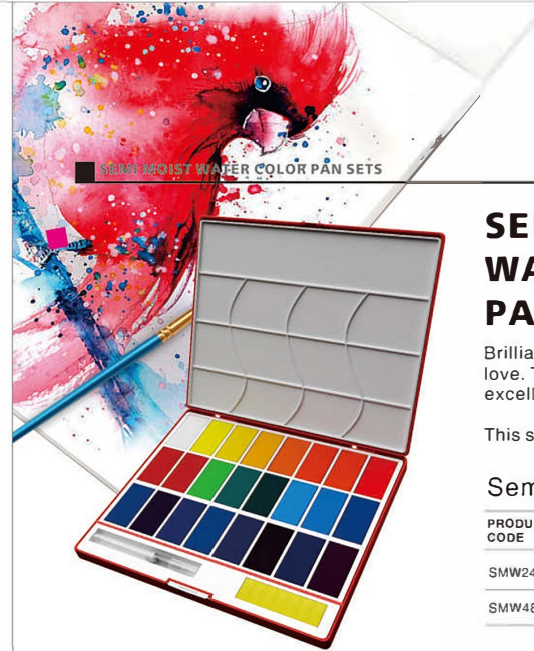

NATURAL SAND PASTE set

- SAND BROWN
- SAND WHITE
- SAND GREEN
- SAND YELLOW
- SAND GREY

- Contains natural sand to achieve unique textural, dimensional and reflective effects
- Permanent non-yellowing, flexible and water resistant when dry
- Mix with any acrylic color or Medium
- After dry can apply paint to surface

SEMI MOIST WATER COLOR PAN SETS

SEMI MOIST WATER COLOR PAN SETS

Brilliant, intense, rich, semi-moist colors everyone would love. These semi-moist watercolors are richly pigmented with excellent quality at an economical price.

This set is enclosed with a watercolor brush.

## Water Colour

Water colour paints are made from high quality pigments and natural plant gum with advanced technology.

Versatile colours with strong liquidity, vivid and transparent, little perceptible wet-to-dry colour shift. Inter-mixable to create any colour you want, diluted with water in certain degree can help to achieve special transparency.

Suitable for beginners or students from primary and high schools.

# POURING ACRYLIC

Pouring is a great way to smooth out unwanted texture, get marbled effects, rich coloured glazes and add some fun to your painting process. No more pouring mediums required. Suitable for most paintable surfaces such as paper, cardboard, canvas, wood, plastic, ceramics, porcelain and metal.

Always test on small area before applying to entire surface. Drop sheet and disposable gloves are recommended to use during painting process.

**Directions:**

- Shake if color separated in the bottle
- Pour multiple colours onto surface.
- Shift or swirl the surface to spread colours.
- Or pour multiple colours into a cup, then pour onto surface.
- 4 hours touch dry, 24 hours fully dry.
- Sealer can be applied after fully dried.
- Clean while wet with soap and water.

**Tips:**

- Colours can be mixed and altered by stirring thoroughly together.
- Wood, canvas and other porous surfaces should be primed before applying paints.

**Directions:**

1. Prewash and dry the cloth before working.
2. Each bottle contains 3-4g pigment. Dissolve thoroughly by warm water around 30°C.
3. Bundle and tie-dye the cloth after with your favorite design, then leave it into an airtight bag for 12-24 hours under temperature 30-50°C.
4. Wash the cloth with cold water after taking out from the bag until the water clear. Re-wash 1-2 times after nature dried before dressing.
5. Use out within two days if dissolved in water to avoid poor tie dye effect.

Prewash and dry the cloth

DECORATION

## TEXTILE PAINT

Textile paint for decorating on light textile such as cotton, mixed textile with max 20% synthetic textile.

To use before decorating, wash and dry textile (without textile softener). Stir before use. Work directly from the jar. Paints can be mixed and thinned with water. Place a pad underneath material to keep paint from bleeding through. When dry (approx. 6 Hrs) iron from the back to set paint (approx 5 Min., medium heat, no steam - check heat resistance of fabric). When ironed, can be washed up to 40°C. Wash and iron inside out. Clean tools with water. Water-based.
