W20\*H9\*D7 cm

# Recycled Coconut Bag

## Material:

Coco fiber is an ECO fiber. It heats the fiber of the coconut shell to 1200 ° C to produce activated carbon. It is then mixed with polyester.

## Function :

Not only does coco fiber deodorize, but also resist ultraviolet rays, and it has a porous water-permeable surface, which can quickly absorb a large amount of moisture, rapidly diffuse and volatilize, and ensure the effect of dry and breathable.

Bag size: W44.5\*H36.5\*D12 cm

# RICE HUSK RECYCLED BAG

## Material:

Rice husk carbon

## Function :

1. Porous, large adsorption, Except odor
2. Light weight, low thermal conductivity and excellent thermal insulation.
